X. Decerned by the
Original Grantee.

I This is one of the Darnasarams in the perramang Estate of Ramnad. This is situated within the distance of four miles from the Subah Ramnad. This is a hereditary grant. This is in ~~an~~ uninterrupted possession of its holders since the date of the grant. It appears by tradition that this village was granted a century ago to one Suba Vastiy for subsistence. This village has no Patta. It is not known what became of it. This village is supported by the accounts of £ 1211/4/24 6 that are in possession of the perramang. The present area corresponds with that given in the said accounts of £ 1211/4/24 6. There is no Takara of boundaries. The perramang's Deed recorded his opinion ^{in the} statement. Under these circumstances the area of 700 Pints is due (7 seven) confirmed on the present holder of the Village -

confirmed on the present selling the village.
 II. The person No 1 inf. 16 purchased the village on the 27 June 1860 for 500 Papero from Anarita Rama, Lasty & his brother. Bill of sale is in Rama's hand -
 Transaction proved to be bonafide - Quirama Krestinger the younger brother (now dead) of the said Anaritarama Lasty appeared before me in person at the house of the settlement of the
 Village & admitted the sale. Two of the witnesses who attested the Bill of sale viz. Quirama, Zungen & Siva Rama, I questioned the transaction. As the thing being sold was a village there is no doubt.

11th The persons No 1 & 2 of 16 ~~persons~~ measured the Village & found, they say, the present area to be correct. Hence it is not lost here. A person who has been in the village for some time has been in the village for some time. The details entered in columns 1 to 5 of the Register are deduced from the Register & Statement prepared & produced by the persons of 16. There is no village in it. The details entered in columns 1 to 5 of the Register are deduced from the Register & Statement prepared & produced by the persons of 16. The present holders say that the accounts now produced by them of the area of the Village are correct ones. The area of the village is now in full once & occasionally twice. This year they have been cultivated & time -

IV The red loess are irrigated by a small tank. The Red Loess are annually elevated in full once & occasionally in part. The Agrobacterium does them selves smaller than before me. The nature of the soil is of an alluvial character though there are no rivers close to the village. The net profits of the last 5 years are not higher than before me. The Agrobacterium says that their average net profit of the last 10 years amount to 26 Rupees minus 280. The net profits of the last 10 years. The average price per bullock of the preceding five years. The alluviation of the Agrobacterium is valued moderately in reference to the average price of the last 10 years. The waste is fallow occasionally - The average
