I This is one of the Divasigum Villages situated within the limits of Ramnad & extending at a distance of 10 miles from Juelah Ramnadurum.
This is a grant made, it appears, 300 years ago - But there is no ^{Proof} to prove this age - It is not known what became of it. This was granted for the support of
the Temple of Sri Mangaleswara Swami in the Village of Sri Sutturam Pori Mangai. The proceeds of this Village are appropriated to the expenses of the Temple
in paying the wages of the servants, in performing daily & annual ceremonies &c. &c. - Cattle are made twice a year & one for some one & the same time -
From this the importance of the Temple may be easily seen. The Village is in undisturbed possession of the Temple since the date of the grant -
The Village is situated within the recognized

II. The present area of the Village exceeds that given in the account of 1726 & 1746 by 10 Acres - This extent is situated within the recognized limits of the Village - The present boundaries given in the statement correspond to those in the account of 1746 - The remainder of the land found no fault with the boundary - Hence the area of 68 Acres is confirmed here

limits of the Village - The present boundaries given in the old survey of 1726 agree with the boundaries - Hence the area of 61 Acres is confirmed here.

III. Wet lands depend upon a small Tank. The Tank is in want of repair - Hence the till lands are not cultivated since the last 10 years - In 1726 one Acre was cultivated. Wet lands are of a medium character - Barinph or Dry lands are cultivated annually. Soil is of a mixed character - It appears the Village is not in good state from want of care on the part of the Manager or Trustees of the Temple - The average net profits from the Village during the last 10 years are 36 Rupees per annum - Advantage - I fix the value of the village as follows - The Tank will be repaired this year & the Wet lands will be brought under plough.

Wet 28 Acres at 2 Rupees per Acre	56
Dry 33 Acres at 1 Rupee per Acre	33
<u>Total</u>	<u>89</u>
