1 This one of the Darnas areas in the peninsula of Ramnagar. Her was granted by the Emperor in 1513 to the person of 153 & others for subsistence. This is a hereditary grant. This is an uninterrupted possession of its holders since the date of the grant. Her has a Patta engraved on a stone - This fact is mentioned in the Pargana Account of 1827-28. The Village is entered also in the English account of the same year. The Village is supported by the same accounts of 1812 - This Village consists of 20 1/2 square acres - They are enjoyed as shown in the margin. Pongra is paid out the number of Villages equally - Lands have been divided long ago. Lands are exchanged in the Village once in 16 years - This was not done since the last 52 years given word of community in the people - The Malagans say that they are now willing to exchange lands according to the practice of the Malagans. The Village was originally consisting 12 Villages - The number was raised to 20 1/2 - Pongra - The present area exceeds that given in the standard accounts by 78 square - All the lands entered of 1685 are situated within the proper limits of the Village, which is confirmed by those in the account of 1726-66 - No Takara about the limits on the part of Rang's Takari - Since the year of 266 there is no ground here. The excess is attributable to the omission of Pongra's lands from the standard accounts. The object of preparing the standard accounts was to show only the cultivated area - The Village is measured in the year 1840 - The account contains 185 Villages of Rangar.

The image shows a single page from an antique manuscript, characterized by significant water damage and staining. The parchment is a mottled yellow-brown color. Faint, cursive handwriting is visible across the page, though mostly illegible due to fading and the staining. A vertical line, likely from the book's binding, runs down the left side. A small, dark, rectangular mark is located near the top center of the page. The overall appearance is one of great age and poor preservation.

- That the prod^d 60-61 & 62 appropriate to such process left unexpended after
- meeting the pressing charges of the Langaois - which could be very well paid in a year
- or an average - The ^{old} produce in support of the argument the
- Rational account of Montmorency & Rakchass corresponding with it &
- 1775 & 1806 in which it is further in the Village from are
- attested by the maintenance of the ^ALangaois - There is no Principal Station
- in the Village - The ^{old} complementing that the cause of the
- Mahagunna received 3 notes of Bonds for 960 of the money the
- person #35 of 1806 in the shape of bride for the repair of a Devasthanam in the
- Village & that the Bonds were on one Receipt paper -

= of the above Debezures is false, that the Lands which the famous N^o 60-68062 Lattomali
- 1066^{held} are then patented, that they were not granted for the use of the said N^o 60-68062 Lattomali
that the Ransam accounts presented by the above party are false & untrue. N^o 60-68062 Lattomali

Fl^y the first 60-61 the gold never occurred on 360 paces to them
- in the deep beds to meet the upans of the temple in the village

2. 'O' reason it is proved & admitted by 1. the father & mother
the grandfather of the person Nov 1862 and one of your
to immigrate 60 years ago & one of the other children in the
e-act the person's property -
