It is one of the Villages in the Zamindari of Loh Rannad - This was granted by the Commission of 1801 to the Countess of Darlington. It is a firm land.
No Patta. The settlement is partly, I must say, efficiently kept up - The Village has 3 owners & each inclusive of two of the servants of the Settlement.
I do not see any simple means to give more persons. The ^{the} Revenue of the Village is not appropriated to the use of the Settlement.
Partly it is misappropriated. The Settlement is under the management of the Nany's Rannad. No Talker about the time or about the place
- comes down on the part of the Nany's Vakil. The town series correspond to those in the Account of FZ 46 - Hence 426 sum & 21 parts in an account here.
The average income of the Village is 273 Rupees as far stated of the Nany's Vakil. I raise it to 79 Rupees with reference to the state of the Village.
