

Sundangulam

Latel 1-a-

W. H. P.

Register no 579
Sheet no 654

I. It is one of the Darmaasams in the Territory of Rannagarani. It was granted by Lunsana Pongye to the person of 13 for cultivation -
- with 9 1/4 Villages forming now Penangaramay Valtham. This is a hereditary grant. This is in current & perfect possession of its holders since the
- date of the grant. There has been no alteration engraved on a stone in Mogyang fort in Mlahun Valley. The Village was excluded from the Agreement of
AD 1875 copy of which is forwarded to the Board of Revenue. This is doubtful. It is supported by all the other accounts.
- No toll was about the Area or about the boundaries on the part of the Rannagarani Vastal. The boundaries correspond to those in the Account of
- July 12 66. Hence the Area of 40 Acres & 7 fens is confirmed here. The persons are descendants of the Ogl Grantee. But they are unable
to describe the relationship existing between themselves & the Ogl Grantee. No several generations passed -
The persons whose names are entered of 185 ^{were} not the shareholders in the Village. They are the shareholders of the same as the Villagers -
forming Penangaramai Valtham to which the Village under Allham belongs.

II. Wet Cans depend upon one small tank. It is in repair partially. It is fed by Jungle Stream -
The H 186 says that the Wet & Dry Lands passed as waste are Mlatuk Kan. The Soil is not of a superior quality.
Wet Cans are not cultivated at times. Fertility of Water is not felt for the lands that are cultivated annually.

III. The average income of the Village as per statement of the holder of the Village is 1600 per annum. This is most true -
I have no materials to enter into the average ^{of} the adjacent Open Lands. The minimum rate of the Land in which the
Village is situated does not exceed 12 shapen Acre. The village does not
