

A few Bramins are fed & are poor - & the zemindars destroyed most of the Chuttram & lands. But he is appropriating the proceeds for feeding Bramins in the said Dora Rajah Chuttram - which was built 5 or 6 years ago. I am sorry that I cannot but remark here that Chuttram funds are misappropriated in this zemindari to a vast extent. The Range Tahsil failed to prove by the Accounts & State the proceeds of the Villages belonging to the ~~Chuttram~~^{old} of Varava Bhimpala Chuttram as own settlement are appropriated for feeding Bramins in Dora Rajah Chuttram. The Tahsil says that if saved, the proceeds of the Villages of Varava Bhimpala Chuttram will be appropriated for the use of that Institution only - I think it is necessary that Varava Bhimpala Chuttram should be restored & placed at the proper footing, & if this is not done, the Villages attached to it should be apt incorporated with Goul Cond. I request to advise strict orders on the subject to the Range of Ramnoid through the Collector of the District. The zemindar is doing great injury to the party by placing Chuttram & villages under his mismanagement - If these villages are made over to those who can take much care of the Chuttram, they ^{will} flourish well.

III The average income of the Chuttram for the half village is 8 Rupees as per statement of the Trustee of the Tahsil. I would like to see 150 or 200 rupees more.
