Valuation

10. Wet lands depend upon one tank of moderate size. It is in a regularity. It is fed by Pungla stream. The tank is fed annually. Scarcity of water is felt in some years. The Mahajanams say that the Dry (Wet lands) flowered as water are Mattukud. This is not much to be depended upon. It appears from the individual statement of the Mahajanams that there is some exaggeration in the matter of water. Wet lands are not cultivated 2 times. Soil is of a medium character generally. Harvest is moderate. I have no materials to enter here. The average assessment of the adjacent Dry lands. The Mahajanams Trustadon informed that there are no detailed accounts upon which the Taluk average assessment of a period of 15 years is calculated. The average Dry assessment of the adjoining Dry Village does not exceed 12 Rs per acre. The average income of the Village as per statement of the Mahajanams is 110 Rs per annum. This is quite false. In consideration of the fertility of soil & I frame the valuation of the Village as follows. I have seen myself the lands of the Mahajanams. The villages composing Panangaramai Vallam or Division. To which the Village and settlement belongs. The Taluk average is 12 Rs per acre.

Wet 50 Acres cultivated annually at 40 Rs per acre - 2000 -
 Wet 17 Acres D & of an inferior quality at 30 Rs per acre - 51 -
 Wet 17 Acres Waste tract 10 Rs per acre - 17 -
 Total 268-0-0

Dry - 126 Acres cultivated annually at 12 Rs per acre - 1512 -
 Dry - 165 Acres Mattukud &c at 6 Rs per acre - 990 -
 Total - 156-6-0
 Total 424-6-0

This is one of the villages in the panchayat of Rammampuram. This was granted by Sundara Periyar for the support of the Rammampuram Temple in Rammampuram. This is a permanent grant. No Pottu.

The Temple is not apparently kept up - as will be seen from the account annexed. Taken by the Sub-Registrar of Tiruchuligai. It appears that the Temple was closed 20 years ago & that the Temple is not worshipped any more. Hence I recommend to resume the Village & incorporate with Goulboud.

No. 1. Ask about the area or about the boundaries on the part of the Rammampuram Taluk. The boundaries correspond to those in the account of 1824. From the area of 69 Acres 136 Faths is confirmed here.

The average income of the Village is 500 Rupees per annum.

Mohutalad
to the Rammampuram
Superintendent

In consequence of the proceeds of the village
being insufficient in some Tuckies to cover the Panchayat, the
Panchayat was discontinued. The village needs repairs
to conduct the Panchayat. The Dip Collector who looked
into the statements filed by me regarding the
proceeds of the village has to my surprise re-
commended the resumption of the village.

To be resumed & resumed as
incorporated with the following recommended

Handwritten text in a cursive script, likely a historical document or manuscript. The text is written on aged, yellowed paper and is partially obscured by a large, irregular tear or hole on the left side. The handwriting is dense and flowing, characteristic of 17th or 18th-century cursive. The text is organized into several lines, with some words appearing to be underlined or written in a slightly larger hand. The overall appearance is that of a well-used, possibly legal or administrative, document from an earlier era.
