

Ter Kuningdunolaw

Hamnad Jansen

1 This is one of the Darmasacana's in the germiney of Rannapessum. It was granted by Samudra Pandya King to Ananda Kristingera & others with 91% Village on one & the same date for subsistence. This is a hereditary grant. This is uninterrupted possession of its holders since the date of the grant. This has a Patta engraved on a stone in Hagera for it in Melur Taluk. The Patta is corroborated by the accounts of F211 & the Tamil Account of D.D. 1875. but this is omitted by mistake from the English

2-25-90 "9." The Village is supported by the accounts of FZ 1878 & the Tamil account of AD 1875. But this is omitted by mistake from the original
265-50 22-11-90
account of AD 1875 copy of which is forwarded to the Board of Revenue. No talk as yet about the area or about the four series.
J.S.

II The village consists of no further - Nelsons are vijoged & Pompey is paid as above in the margin - The Mahozavams say that the
townships of the several individ uals were once measured - The lands are not liable to periodical exchange -

These preceding side

III. The persons of old are descendants of the Ogl Grantee - But as several generations passed between the Ogl Grantee & themselves, they are unable to describe their relationship with the Ogl Grantee. It is proved by the tradition that the persons of old are descendants of the Ogl Grantee. ~~They are unable to describe their relationship with the Ogl Grantee. They are unable to describe their relationship with the Ogl Grantee.~~

IV. The village is now under attachment as the Mahajanams failed to appear for the settlement in due time. Now the village will be released at once - from attachment -

V. The lands depend upon one tank of moderate size. It is not in thorough repair. It is fed by single stream - The tank is left in a neglected state from want of care on the part of the Mahajanams. The Mahajanams say that 13 Ann of Rs. 4/7 1/2 Ann of Dry -

VI. The lands are partly cultivated & partly in waste - that the 10 years work is -

VII. Ascribable to the security of crops - that the white lands are fit to be cultivated any time -

VIII. The white lands are not growing up with jungle - In fact there is no jungle -

IX. The Mahajanams have right to the lands for Kurni & Vellu -

X. The lands are not the same with other lands - The Mahajanams have right to the lands for Kurni & Vellu -

XI. The lands are not the same with other lands - The Mahajanams have right to the lands for Kurni & Vellu -

This is not true at all

Security of Water is not full for the lands that are fallowed annually -
 - The Village is not such a state as it ought to be for want of care on the part of
 the Mahajans. The Mahajans say that any portion of Puzar lands are not
 full to be converted into hab. The average income of the Village as per statement of
 the Mahajans is 500 Rupees per annum. I have no materials to enter here the
 average rate assessed of the contiguous Ryot Villages. The average Ryot assessment of the
 contiguous Ryot Village does not exceed 12 Rupees per acre. In consideration of the
 fertility of soil & I frame the valuation of the Village as follows -

- 10 Acres fallowed annually - one at 3 Rupees per acre - 30 -
 - 7 Acres of hab. waste - one at 10 Rupees per acre - 70 -
Total 67 -

- 100 Acres fallowed annually at 12 Rupees per acre - 1200 -
 - 100 Acres of hab. waste - one at 6 Rupees per acre - 600 -
 - 100 Acres of land - one at 5 Rupees per acre - 500 -
Total - 128 - 14 - 0 -
