Register of the Masaram Village of Terpoko No. out to the Helhad Salaputty Zamindary Estate of Pam nod out to the Masaram Dea

Terpoko தெற்கோடு

I. This is one of the Villages granted for the support of the Poulthi known by the name of "Lone Lora" situated on the banks of the Pamban Canal. It is not known when it was granted. But it is well known that this is one of the ancient grants in the Masaram area. The Revenue of the Village is ~~from~~ time immemorial for the Poulthi. Daily 30 or 40 Bannas are fed. This is confined only to Bannas & not to all Cows. The Institution is apparently kept up & the building is in repair & it is a very commodious building. The Village is supported by the accounts of the 12. Hence the falls in the Pale III.

Clause one - No Pale

II. The present area ^{is} ~~conferred~~ ^{is} ~~not~~ given in the account of 1724 by 167 Acre. As there were grown up with jungle in 1724, they are not inserted in the account or in subsequent accounts which were prepared from it in different stages. All these lands (46 Acre) are situated within the proper limits of the Village. The Masaram Vakil paid no fault with the boundaries which correspond to those given in the account of 1724. Hence the area of 46 Acre is confirmed here. No Hamlet or Hamlets.

III. The wet lands depend upon 2 large Tanks. About 20 Acre are left waste annually from want of water. In fact, there are no long waste lands. These are full water only once. Soil is not of a superior quality. Dry lands are a medium for 10 Acre. Some lands are left waste in one year & full water in the 2nd year. This is done merely to augment the fertility of soil. The average net profits of the Village as per statement of the Masaram Vakil is 1000. The average rate of the Govt. as well as Masaram lands are given on the back of the Register. Both reference to the fertility of soil & the value of the water in the margin.

From the Statement of the Masaram Vakil
