I This one of the Darnasans in the Jemini Rang of Ramasapuram. This was granted by the Jemini Rang of 13 for his land - This is a pending grant. This is in unemptied possession of its holder since the date of the grant. This has no other land. This Village was considered 1/4 of the land on the date of the grant. The land was situated within the proper limits of the Village. is an area of 22 acres above the area given in the account of 1211. These lands are situated within the proper limits of the Village. Hence the area of 101 acres is confirmed here.

II. The late taking the persons of 1211 & 16 purchased the entire Village on 3 occasions for 1234-7. From our South & North & West & East. The two latter are the standing shareholders in the Village while the former is a purchaser of the Village long ago. The above transactions proved to be bona fide & enjoyment proved. The 3 Bells are on Stamp paper & are not affected by witnesses. But the seller Mullasawmy Iyengar consents the transaction. He is alive & the family of the original grantee is not in existence.

III. The lands depend upon a Tank. It is fed by the "Parava Ramay" a Tank of Ramasapuram. The Tank is not in repair. The Village of the year of 16 claimed only 6 acres of land & 3 1/2 acres of dry. The being of a very small account, I have called upon the persons of 16, who are relatives of the Rang of the Jemini Rang, to afford explanation on the matter as I cannot trust the Ramasapuram statement of the Village. The year of 16 addressed to me a reply to my letter, which is appended to this Register. From this it appears that this is a depopulated Village, that it fell in disrepair & that it was from want of repair & that if the Tank is restored at a cost of 600 Rs. the entire area of the lands may be brought under plough. Now it appears the net extent of the lands is annually in between one & two. The land is now from the result of my enquiry also. But still the lands are not so full water & they will be brought under plough shortly. Of the present holders of the Village - spend 600 Rs. & bring all the lands under plough. This will become a very valuable property as the Village is situated in the vicinity of the Village of Ramasapuram - where there is a ready market for grain & other produce. The average value of the lands is 10 & 12 annas. Now the village is let out on a lease for 10 years. It will produce about 10 annas. The average profits of the Village as per statement of 1211 is 3 annas. This is not as per 24-5 is deducted the net profits are 7 annas. This is not as per 24-5 is deducted the net profits are 7 annas. This is not as per 24-5 is deducted the net profits are 7 annas.

The Village is in a state of disrepair & is in need of repair. The lands are not so full water & they will be brought under plough shortly. Of the present holders of the Village - spend 600 Rs. & bring all the lands under plough. This will become a very valuable property as the Village is situated in the vicinity of the Village of Ramasapuram - where there is a ready market for grain & other produce. The average value of the lands is 10 & 12 annas. Now the village is let out on a lease for 10 years. It will produce about 10 annas.
