14. Another Valley Trustee for presented a claim for 1/8 of the lands out of the lands in possession of the said 1721 & 1726 & one share out of the lands in possession of the person No. 26 25 & 26 1726 & 1726 on the ground that his Grand Father mortgaged the lands 60 years ago to the Grand Father of the person No. 1721 & of the person No. 26 25 & 26 1726. He says that he does not know for what sum & for how many years the lands were mortgaged by his Grand Father. In proof of which he produced 2 bills of sales & two Deeds of gift dated 1749-1764-1754- & 1753 - He has no other evidence - He admits that the lands are not at present in the family since the last 60 years. The Caution Bill of sales & Deeds of gift produced by him do not seem to be so genuine. On the whole as the English & French the fact is it is not in the hands of the parties are supposed to be of good faith. (See next page)

The person No 52 & 53 of 616 claims to
 be the father of the person No 57 of 616
 on the ground that they mortgage the lands 25 years ago
 to the person No 57 of 616 for Rs 387 - for unknown purpose
 No documents of the mortgage. The person No 57 -
 denies all knowledge of the transaction. The Mahaganamans
 say that they cannot know any nothing about the transaction.
 On the whole it is proved that the person No 57 is enjoying
 the property in question since the last 30 years. I have registered
 it in his name & engaged the parties to final court.
 I have enquired long & long about the transaction & evidence
 on either side but enjoyment on the side of the person No
 57 of 616.

The area of the village now under settlement corresponds
 with the given in the account of 71266. The area of the
 village that is entered in the statement by the Mahaganamans is 20
 as to agree with their entries in the account of 71266 & which
 are entered in the copy of the statement of the
 Mahaganamans. The area of the village is 457 1/2
 of Purnabok.

The lands are situated upon a large tank. It is fed by
 a small stream. The Mahaganamans wanted to 30 acres as waste. On
 questioning them they wrote a statement on the Pagar that these
 are not waste lands of any age. They are cultivated in full of the
 season is favourable & sometimes when the land is not full
 some of the lands are not left waste. The lands are not
 cultivated 2 times. This year if the lands will be cultivated 2 times
 as the land is already full. Soil is of a medium & fertile
 Soil is of a saline nature generally. Harvest is moderate.

Purnabok lands are of a saline nature. The Purnabok authorities
 in this village since the last 30 years 23 acres are put to be cultivated
 with dry grain. Purnabok is covered in back yards. The village
 is in good state. The Mahaganamans pleaded that 308 acres of
 the lands are unfit to be cultivated & want a remission to that
 fact in the Register. According to the Mahaganamans as Purnabok.
