It appears to the true & correct extent that Village suffers occasionally from the inundation but not to such an extent as stated to be by the Mahajan

Naigah & Pingah lands are of medium character generally -

Wet lands are not cultivated 2 times - Wet lands are not cultivated 2 times -

The Village will be improved soon by raising a dam & the average income of the Village as per statement of the p. 16 is 100 per acre not true -

Dry lands are of superior quality generally - I have no materials to enter here

The average assessment of the contiguous Nijam Village - The Dry assessment of the contiguous Nijam Village is 12 per acre - In consideration of the

facility of soil & I from the valuation of the Village as follows -

Wet 12 1/2 per acre at 20 per acre - 25

Dry 10 1/2 per acre at 20 per acre - 21

at 6 per acre - 63-10-0
