(Continued from p. 100) This village is entered in the Towns Register of A.D. 1815 -

III Well lines depend upon two small Tanks - They are not in thorough repair - These Tanks are fed by the waste water of the important Tank in the Agri Village of Ajikkotai. No scarcity of Water will be felt as the second tank is a very convenient one & as it is close to the Tanks in the Dammanam under Settlement - The Well there are one

- few waste lands - In Dry, some of the low land is covered as waste or the water

304 you want of systems & records in California occasionally
" There are some most inferior cards too - London, 1841

Soil is of an inferior quality - generally there are some more fertile
spots here & there. I have no materials to enter into the ~~best~~ average assessment of the ^{district}

in about one acre. I have no more.

Some of the new blowing open ranges that are settled on sharing system - Average Dry rates of

Wash. Co. D.

The neighbouring five villages of Binjal Kotar, Bonia, Nisul & Modanwar are all under the management of the same person.

The Dry Lands in this Village are not so fertile as that of the neighbouring soil - I have not noted

of the Village as per ~~the~~ ^{the} ~~own~~ ^{own} statement. In consideration of the same, the
valuation of the Village as follows -

Sept 28 Am. A. 2. - Paper for den. 56.

Dy 106. Revs - at $\frac{3}{4}$ of per an.
in consideration of waste & } 798
