Salvor cultivation of Varis

(Continued from page 1) From the above account it is seen that the present area exceeds that given in the account of 1221 by 335-25- All these lands are situated within the proper limits of the Salage - The limits correspond to those in the account of 1226 - & they are confirmed now by the Rannad Taluk - Hence the area of 600 acres is confirmed here -

1 Some of the persons are descendants of the Original Grantees & others are purchasers of the same Original Grantees. There are also a few alienies - These villages are entered in the Board's Register of 1815 -

In proof of which he produced ¹⁶ Hamsapattam a list of division of property
 - said to have been drawn out in the year Prajotakatti or A.D. 1877 - when
 his Grand Father & his Brothers divided their property among themselves -
 in addition to the ~~agreements~~ agreements alleged to have been executed in by
 - one Lalathammayyar, the alleged manager of the settlement, to his (claimant's)
 father in A.D. 1858 & 1864 - The agreements show that the family of the
 claimant had lands in the village & that they were mostly aged by the
 - Lalathammayyar & others & that the said Lalathammayyar undertook
 - to release the lands within a period of 6 months & release them
 - to the claimant - These agreements are attested by Ruffian the brother of -
 the claimant. The Hamsapattam bears no signature of the
 - person N^o 21-23 & 35 & they deny any knowledge of the matter -
 they also support the statement of the persons N^o 28-23 & 35 in one & single letter
 to the claimant - The lands are not in the enjoyment of the claimant -
 in possession of the person N^o 21-23 & 35 of 016 - The claimant is referred -

Valuation

The lands depend upon 3 tanks. One is large & two are small - The tanks are fed by the Tank of Rajankulam, a Dammasavum belonging
 to holders of the village now under settlement - The Rajankulam Tank is fed by the river Thiruvallur - The Mahaganams say that 83 acres of
 lands are waste are 10 years of uncultivated lands - but failed to explain satisfactorily the cause of this - They say that out of 216 acres of land as they
 are growing with the Palmyra trees of about 70000 - & the rest are fallow as Mattathad or occasionally - The result of any enquiry go
 to prove that there is not much waste in all - The Mahaganams have an influential name in their land - I may estimate roughly that
 - that 40 acres are the lands fit for cultivation occasionally - but lands are not cultivated 2nd time in any year -
 Vandana is raised in 2 or 3 acres of dry - Scarcity of water is felt occasionally - There is not much waste area in Dry area -
 - Land is of a superior medium character generally - Annually on the whole most of the lands are cultivated - About 50 or 60 acres
 are grown with the Palmyra trees - I have no materials to determine the average rate of wet lands of the neighbouring Agri & Rajas but are
 - on showing system common I have entered the statement showing the details of the work of the Tank which the Dammasavum is entitled -
 to receive the water & the neighbouring Agri & Rajas of Kattiyandil & Kattiyandil & Rajas & Rajas are at 166 per acre -

It is well known that the Mahaganyams to clear some of the full water lands as Pannaboke & others as waste through
 necessity of rendering the false accounts when they have an option of enfranchising their lands.
 After weighing thoroughly the matter & capabilities of soil, I gave the valuation of the Village with the aid of the Mahaganyams
 as follows -

Wet (lands of full water area) 90 Acres at 1 1/2 Rupees per acre 405 -
