The lands in the Dammassamane portion ~~is~~ are undivided - Pongee is paid
agreedly by the persons of the

Salvation of the Damascus portion of half Village.

III Wet-lands depend upon one Tank. It is partially in repair - It is fed by a
Tungle Stream - No security of Water is felt generally - The tank is filled annually
The Mahajannams say that the Dry & Wet-lands cleared as waste are all tilled &
Wet-lands are not cultivated & others. There are materials to water here the average
Wet assessment of the adjacent open lands. The average Dry assessment comes to
12 Rs per acre - The average income of the Damagannam portion is Rs 43 - per
annum. This is not true - In consideration of the fertility of soil &c, I propose the

valuation of the Village as follows.

Wh 17 Price per stone annually at $3\frac{1}{2}$ pence } no.
per acre ————— } 59-8-

Vol 5 Acco - Matt Rad Trust 20 yrs per an 10 ————— 698

Tree 40 semi-fulvate annually at $\frac{3}{4}$ inches per ann - 30 ---

Dry $12\frac{3}{4}$ down Part 4 at 4 As per case ———— 3-3 ———— 33-3 ————
