1 This is one of the Daomedanams in the Territory of Rannapurum. This was granted for the subsistence of the person of 013 in 1801 by the Government. The Patta of this Village is cut as an Inscript on a stone, which is on the bank of the Land in the Village - copy of it produced to me. Again the Village is supported by the accounts of 12. Half of the Village was divided into 14 equal Parts & another 39. The reason of this is that originally this Village was in possession of two Brothers. One Brother divided his share into 14 & another into 39 by giving 2 shares to Bramin & Porup is paid permanently half on one half of the Village & the remainder on the other half Village & especially on share. Lands are divided. The practice of this Village is to exchange Cattle once in 12 years - but this was not done since the English came. In the English account of 1815 it is said that the Patta of this Village is cut on a stone - the present area of this Village corresponds to that given in the account of 1828 & the Government of Kach finds no fault with the boundaries - Hence the area of 490 Acres is confirmed. The boundaries correspond to those in the account of 1840 -

II Some of the persons of 016 are the descendants of the Original Grantees & others are otherwise. Particulars of sales are given below -
