Register No 669

Sheet No 784

1 This is one of the Villages in the Zemindary of Ramnadpurum – 3/4 of the Village is DasaKavel granted by the former Govt to the Zemindar to secure the peace of the Country. These DasaKavel Villages were included from the assets upon which the Permanent Settlement was based – The remaining 1/4 is a Darmasanam Village – granted by Sundara Pondyan thousands years ago & which is deducted from the assets of the Permanent settlement. Hence the 1/4 of the Village alone ~~[illegible]~~ is brought under this settlement – This 1/4 Village is a hereditary grant. There is uninterrupted possession of its holders since the date of the grant. This & the remaining 92 1/2 Villages forming Perungaranai Vattam has one Patta engraved on a stone in Alager Covil in Melur Taluq – No Takarar about the boundaries on the part of the Ramnjs Vokeel – The boundaries now inserted in the vernacular statement correspond to those in the Account of F1244 – Hence the area of 32 Acres & 49 Cents is confirmed as the area of the entire Village. ~~Half~~ WMS One fourth of this belongs to the Darmasanam portion – The lands in the Darmasanam portion are enjoyed as shewn in the margin. The lands were divided permanently – Porupu is paid as shewn in the margin –

The persons of col 6 are descendants of the Orgl Grantee as appears by the tradition & the persons whose names are inserted in Col 15 are found in the Register of all the Darmasanam Villages forming Perungaranai Vattam – They were principal shareholders of some of the Villages of Perungaranai –

Valuation of the ¼ Village of the Darmasanam portion:-

Wet & Dry lands are cultivated annually in full. Soil is of a medium sort generally. Wet lands are not cultivated [illegible] time. I have no materials to find out the average income of the ¾ of the Ayan Village or Wet assessment of the adjacent Ayan Villages. This is an ~~of~~ insignificant Village. In consideration of the fertility of soil &c I frame the valuation of the Village as follows:-

Wet 2½ Acres cultivated annually at 4 Rupees per acre	10 —
Dry 2 Acres cultivated at ¾ Rupees per acre	1-8-0
Dry 2½ Acres Waste at ¼ Rupee per acre	0-10-0
Total	12-2-0
