

I... This is one of the Devasthanam Villages situated within the limits of the Zamindari of Ramnad. This was granted by the Emperor in 1808 for the support of the Temple of Sri Mangalamba Swami in Tiruvattara Rose Mangai. ~~3650~~ 3650 years ago as stated in the account of 1815. This is a Permanent Grant. This is in unaltered possession of its holders since the date of the grant. The name of the 2nd was lost. The Temple is efficiently kept up for service is performed twice a year. One festival on the same time. The grant falls under Rule III clause one - Tax Free.

II... The present area corresponds to that in 1811. The Zamindar takes no fault with the boundaries & it corresponds to those given in the account of 1816. Hence the area of 11-67 is confirmed here.

III... The land depends upon a Tank. Soil is of a superior quality & the land is left waste since the last 40 years. Soil is out of repair. It is realized from the Revenue of the other Villages granted to the Temple in question. I frame the valuation as follows. This is a depopulated Village.
