

II. Not known about the area or about the boundaries on the part of the Range Vindal. The boundaries now inserted in the present statement correspond to those in the Act of 1724. Hence the boundaries are confirmed here to the 362. Area 437 fants situated therein are registered here.

III The main points for consideration ^{the one} is whether the object of the grant is being fulfilled or not - The ~~first~~ Chattram fell in ruin long ago - Not only a few bricks of the foundation wall of the Chattram are being found here & there from the accompanying Receipts of the Bhakars & Monegars of the Chattram it appears that the Original building fell in ruin long ago; that since the last 25 years the funds of the Chattram are being ~~appropriately~~ spent in feeding ~~a portion of~~ a portion of Lowry & Nadia Monegars of Chattram residing in Paramaguri, in feeding 6 men & in ~~def~~ distributing "Paraganpakum" or raw rice to 6 men daily & that the monthly expenses of the Chattram are 24 Rupees per month in ready money & 4 1/2 Kallans of paddy in grain; that more men are fed on the occasion of the Anuvasya & the Anuvasya the value of Raw red Kalling grain paddy is 5 Rupees per present state of market - I examined others than the Bhaks who live in Paramaguri they state that only by bread ^{at} that in the Chattram ^{of} Paramaguri some men are fed daily from the funds of Velaya Chattram - The Council also is opened for a few months once annually.

It appears a Larmer Council also is opened for a few months this autumn
in the settlement. Mr. Rany's Gunboats, furnished in who produced
Regulation for all the things belonging to the settlement were settled -
never mentioned before that the ~~of~~ ^{of} settlement fell in ruin & that
the property is being conducted in Paramaguay - they wrote in the article
that the settlement is especially kept up - Lawmy Vada Moneyar -

unimod 7th Geny
246
that the Chatterman is off

Chatterman in which the charity of the Velazquezapurum Chatterman is used ^{other} have been conducted has a portion of "Telle Milla nalluri". I recommended its resumption by reason that the Chatterman ^{is not} efficiently kept up & the object of the grant is not being fulfilled - ~~which~~ I am extremely in doubt whether the proceeds of the Chatterman of Velazquezapurum are being spent in Paramaguzi Panyam or the all other Chatterman. It is a known fact that the funds of Paramad. left to Chatterman are in neglected state.

 Chattram
 Velayada
 puram

To depose
 the Charges of Chattram
 of Venkates
 vadhous
 in Velayada
 puram

People may say in favour of the petitioner for going incurring his deep lease -

I gave a notice to the Manager of the Rang of Rammed on the 15 October 1815 -

bringing to his notice the delapidated state of the Office Chattram in Velayadapuram

& requesting to inform me on or before the 28 of the said month whether the Rang is

willing to restore the Chattram & fulfill the object of the grant by providing men persons

But no reply was sent to me up to this day as usual. Copy of the notice is placed with

This silence of the Rang strong shows my opinion that no portion of the proceeds of

Velayadapuram Chattram is being spent to fulfill or partly or entirely

the object of the grant. If the Rang were really conducting the charity in Paramagudi

Laxmy Nasta Moneyair Chattram from the proceeds of the Village of Velayadapuram.

she would not have kept silent & she ought to have been proved the same -

I never attended the Village annual Chattram & Devasthanam while I was at

Rammed because I doubted their efficiency & because none ventured to speak the truth

or assist the petitioner or Rang for fear of incurring their deep lease -

The Village of the named Chattram which are under settlement are yielding handsome income

Paramagudi is on a high road leading to Rammed. Velayadapuram also is on a high road and

Under the above circumstances I would recommend to resume the Village of the Velayadapuram

Chattram & incorporate them with Govt lands -

IV The average income of the Village is 1370 Rupees as stated in the Purnam of Taluq in which

the Village under settlement is situated is noted for best soil & dry soil -

In considering the fertility of soil & the abundance of water I calculate the average

income of the Village at 300 Rupees per annum - Proper Rupees 384-25 is being levied on the

Village in lump by the Rang -

V The Petitioner says that the Chattram has a 70 Village named Kankulam. It is not found

in any of the Accounts - It is not brought under the settlement.
