

I succeeded in the attack & captured
Mr. Ford by the throat and

of the persons & the
people & that their heirs who are the first &c.
the remaining lands - Hence the pleasure
amount & note that he has no enjoyment in this
the last 25 years - & that they are living since the
last 25 years separately - Hence the pleasure is
rejected - When the family has been divided so
the property affect surviving parts was not share
formally - Every one took the property that was
in his possession & performed away with it -
As there is being divided a family & as the pleasure
has no enjoyment in share in the Village &
as he has separate lands for his share, the plea is
rejected & parties are referred to civil part (8)

Tenure is whether it is voluntary
 i.e. if this service was not performed
 would the man be liable to
 redemption?
 12/9/83 WKS

The all instances of the Zamindars, who are Palaners or Poets,
 in the Rangas fort. The proportion of the Rangas fort
 during the festival days is not obligatory. It is not obligatory
 discontinue with them. If the Poets attend the Rangas fort
 & read poems in praise of the Rang, they are rewarded with Rs 100
 every morning at the residence of the Minister of the Rang.
 If the Poets, who hold positions, go to attend the Rang
 fort during the festival days, the Zamindars send by themselves
 not liable to redemption, because they are not of a service tenure.
 In Rangas Zamindars, as Palaners or Poets attend the Rangas fort as the case may
 be. The Zamindars have no title or bearing in the Rang of Rangas fort
 & the Rangas fort. They hold a rank in the Rangas fort.

Approved as recommended
 on 1/8th Sept 22 Rs 26

The Defendants deny every knowledge of the transaction. The depositions support the above statement of the Defendants. The Plaintiff says that the lands were mortgaged 50 or 60 years ago. The person of 18/16 admits that the land that is half thirty was mortgaged when & that he is willing to return them - 5th Plaintiff. This is denied - The Plaintiff with the aged brother lands is rejected - as it is not proved that the admission of the transaction the mortgage, 18/16 is a petition one. This is also (one) says a Plaintiff claims to 10% of a thirty out of the land in ten off one the person of 73/16 on the ground that this is the property of one Affooyen & Perom Allen (brother) the father of his Mother Mother & the younger brother of the aged father of the Mother Mother. It is proved that the aged Affooyen & Perom Allen were brothers of a deceased family; that when Perom Allen died without heirs, his son, Perom performed by General - riles - & inherited the lands that were then in possession of Perom Allen; - enjoyed the lands for 20 years & died 3 years ago. Ever since his son of 73 is - enjoying the lands. Under the above circumstances, I rejected the claim of the Plaintiff & the family is referred to civil court. The person of 12/16 claims of a thirty from the person of 73/16 - on the ground that his Grand Father's Grand Father mortgaged the land to the father of father of the person of 73/16, when he does not know. In proof of this he produced an agreement said to have been executed to his late father by his (father's) younger brother regarding the division of certain lands. This document - shows that 1/6 of the thirty was in mortgage with the Grand Father of the person of 73/16. The Guaracian Maba Dancin about Affooyen, of the person - 18/16 denies every knowledge of the transaction & the mortgage. The depositions also deny every knowledge of the transaction. The Plaintiff (12/16) failed to prove the genuineness of the agreement above referred to. The lands in dispute are in possession of the person of 73/16 who pleads that it is his patrimony. Hence the Plaintiff is rejected. - - - - -

1. Wet lands depend upon one large & 3 Tanks. They are fed by the Tanks.
- of AKKaramay (open Village) Marudan & Tavadu Kollai (Devasthanam Village) Kallangudi
- These Tanks are fed by the river Kungayam. The Tanks are around the
- supplying channels ^{are} influential ones. The Tanks are fed in the Village.
- annually the Dammas are under settlement is an important one of the
- The Akkaramayans say that 73 acres of Wet & 363 acres of Dry land as
- waste are situated. or lands left was a full time occasionally. There is
- some exaggeration in the matter as it is observed by individual explanations
- & verbal statements. It is usual every where & in the Village containing first class
- soil, to leave some lands waste annually from diseases among cattle or
- men. So some lands are left waste annually in the Village. This does not
- affect the interests of the Akkaramayans. Wet lands are full tilled & tilled
- to 1/10 or 1/9 of the Wet land area annually & occasionally. Scarcity of
- water is felt in some years. Wet lands are of a superior quality generally
- The soil consists of Pothel & Karud. Pothal lands are of a medium
- quality generally. Vayaga, Karud, & the soil are grown in Dry lands
- Harvest is good both in Wet & Dry lands. No security given to
- one field in the Village. The Akkaramayans are not without money. The neighboring
- Akkaramayans are important ones. No Pothal lands are full tilled in the Village.
- Pothal. Vayaga is not raised in the Village. On the whole the Village is
- in a flourishing state. I have no materials to interfere the average
- rates of the neighboring wet lands that are settled on sharing system.
- The statement given in the margin will show at a glance the
- nature of soil in the Taluk in which the Dammas are under settlement
- is situated & the average prices during the last 15 years. The average
- Dry rates of the neighboring Akkaramay villages of AKKaramay are at 113
- per acre. Average profits of the Village are 1086-6-0 per annum
- as per statement of the Akkaramayans. This is not fair. After weighing
- the capabilities of soil & comparing with the land of the Akkaramayans,
- I give the valuation of the Village as follows:-
1. Wet 1004 acres at 1616 per acre 1616
1 Dry 400 acres at 300 per acre 300
1 Dry 300 acres at 112 per acre 112
1 Dry 350 acres at 99 per acre 99
Total 2118-0-0
