This is one of the most important villages in the
 Zemindari of Ramasapuram. The entire village was granted
 originally by the permission of 1811 to the families of several
 Bramins. But as the holder of 1/16 of the village was absent
 at the time of the permanent settlement, his share which
 was then under attachment of the permission was not included
 from the assets of the permanent settlement - 15 of the
 village alone was included from the assets. Hence the 15th of
 the village is brought under the settlement - the 1 of it
 - village included from the assets was carried again to its
 proper holders subsequent to the permanent settlement

It appears that there is also a Potho engraved on a stone in the village. The mention of the Inscription is made in the Legation account of A.D. 1815. The Legation Potho bears as usual, no vestige of name near that of the Dove. But it seems to be an ancient monument the village is supported by the accounts of 1790.

The person N^o 45 ^{- denies -} ~~knows~~ knowledge of the transaction of the mortgage.

The debarjans also deny the knowledge of the matter - Some of the debarjans say that the plaintiff's father deposited 700 rupees with them in 1855

urging that his lands are under mortgage with the person N^o 45 but the person N^o 45 refused to restore the lands on the ground that he has no mortgage lands with him. The Paramal account do contain one Pongos in the name of the

ancestors of the person N^o 45 the plaintiff. But it is not known what became of it & to what it was sold. The plaintiff's father admits himself that

6. Velly was mortgaged by some one & that they do not know the debtors name.

16. The persons whose ancestors had some shares in the Village formerly, come & claim ~~the~~ as stated above for the Pongos entered in the

Paramal accounts dated as far back as 1799 & such an old

Paramal accounts are of no use in the country where the lands run

from hand to hand every day. The plaintiff deposes in 1858 the sum of

700 rupees with the debarjans to establish her right to the lands. She goes

to her house to court at once when the person N^o 45 refused to restore

the lands. On the whole there is no proof in favour of the plaintiff.

The claim is rejected & the party is referred to civil court.

IX. The person N^o 12 of 1816 claims to 1/2 of Velly from the person N^o 13 of 1816

on the ground that his father's father mortgaged the lands about 30 years ago

to one Tamburadamy & that the widow of Tamburadamy sold mortgaged

the same to the father of the person N^o 102 of 1816 20 years ago, & that the person N^o 102

pleads now that he purchased lands from the said Akashy Arimal the

widow of Tamburadamy. The person N^o 13 of 1816 pleads that the allegations

of the person N^o 102 are not true. The debarjans support the statement of N^o 13 of 1816.

I ask the P^{er}son N^o 13 of 1816 to produce the person N^o 13 of 1816 to the Talukdar

of Puttathur in the District of Tanjore where the witnesses who attested

it ~~shall~~ arise. The Talukdar's reply shows that the widow had 1/2 Velly in the Village

& that she did sell to the person N^o 13 of 1816. Hence the claim is rejected & the case is referred

in the name of the person N^o 13 of 1816.

XVII One Ravalanmal claims to be Big Pongos only of the lands =
=entire opposite to the person N. 11 on the ground that her late father gave the
lands to her about 20 years ago for 150 Rs; that when she was buying from
the person N. 11 December, returned the lands & gave 11. of a Thaly in exchange in
the Damarasou of Sattanur, which was not included from the assets of the
Permanent Settlement, on condition that she is not to dispose of the lands as she
wants paper, that is mortgaged the lands to others - She requests to transfer her
original share in this Village to her. She produced the agreement executed by the
person N. 11 & her on the 3 November 1868 on a Rent of 100 Rs resuming the
lands in the Village & giving her the lands in Sattanur in exchange - The person
N. 11 is the adopted son of her younger brother

1 The person N. 11 pleads that the complaint is against the lands
in the Damarasou of Sattanur & that she preferred the exchange with the lands
in the Village upon settlement herself & that she finds no reason to nullify the agreement -
dated 3 November 1868 -

1 The person Ravalanmal is in possession of the lands in -
Sattanur & it appears from the agreement produced by her that the exchange
of the lands took place 2 years ago on known will & pleasure - Hence I
see no ground to disturb the arrangement entered into the said agreement -
But I think that the restriction that she is not to ^{dispose of} the lands as she
wants paper is objectionable. Hence I refer the matter to Civil Court -
As the Damarasou of Sattanur, will not be brought under the Settlement,
from its being not excluded from the assets of the Permanent Settlement,
she now claims to her lands in the Damarasou under settlement

XVIII - The person N. 69 of 1866 pleads to 1/32 part of a Thaly of the lands in the
opposite to the person N. 70 of 1866 - It is found that the person N. 69 is the son of the
younger brother of the person N. 70 - The family is divided long ago ever since
the person N. 70 is in possession of the lands on two opposite to her name. Hence the
claim is rejected

118 - Wet lands depend upon one large Tank - It is round

- in strength - It is fed by the river Channel of Kiyagar - one influential

river in the District - The river runs to several miles - The Tank is filled

- annually - The Mahajanams say that both the Dry & Wet lands

claimed as waste are Maltukhad & that they are fullwater occasionally

The Mahajanams say as to burn the land in the river, that the Purigah

- Land is left waste from the inundation of the tank & that Kariyahu lands

are left waste from want of water - The result of my enquiry into the

Mahajanams individually & to the neighbouring Villages that there is

- much exaggeration the matter of waste - $\frac{1}{3}$ or $\frac{1}{4}$ of the lands flower

- as waste and left uncultivated annually from one cause or other - such as

- from want of water, from the diseases of the crops & cattle or

- $\frac{1}{5}$ or $\frac{1}{6}$ of the lands are fullwater occasionally & some - Security

- of water is felt occasionally & rarely - Soil is generally of medium character

- Near Pottel, Karsel, & Kieron - Inferior lands are not very large

- in extent - There are some lands irrigated with salt too - Rangab lands

are of medium character - There is ~~not~~ a canal in about 10 miles -

Chilies & Tobacco are the Vining or Garden crops raised in the lands

I have no intention to enter into the average assessed of the neighbouring

- Villages that are settled on sharing system - However I have preferred

- to enter the statement of ~~one~~ in the 2nd side of the first sheet -

- showing the details of soil & of the Taluq in which the Darnasamam

- upon settlement is situated - The statement also shows the cap abilities of soil -

- The average prices of grain during the last 15 years - Harvest is moderate -

- The neighbouring Villages that are situated close to the Darnasamam

- are Urdony, Karsam, & Kariyahu - The lands of the Village of Urdony are

- in juxtaposition with the lands of the Darnasamam & the lands of the two
