

Village of Yelandaikuttam

7 8 9 10 11 12 13 14 15 16 17 18 19 20

I This is one of the Divadagam Villages in the Remnad granted for the support of the Temple of the Mangalieswara Swami in the village of Tiruvatturakissa Mangal in the Taluk of Remnad by one of the ancestors of the present Remnadar. This is a permanent grant. This is in the possession of the Temple since the date of the grant. This grant is of the Remnad Taluk. It is not known what became of it. It appears by tradition that the grant was made 8 or 3 centuries ago, but there are no documents showing when & by whom the grant was made. The account of 1211 of the Remnadar shows that the grant was for the support of the Temple in question. The Temple is now apparently kept up. The proceeds of the village are appropriated to the expenses of the Temple. Daily & annual ceremonies are performed. There has been twice a year once at the same time. This is one of the important Pagodas in the Remnad. This grant under the same circumstances follows the Rule III Clause one.

II. The present area of the Village exceeds that given in the account of 1211 by 7 Acres & 65 Cents. But the present boundaries correspond to those given in the account of 1246. The Remnadar takes full title to the boundaries. As the area of 25 Acres & 25 Cents in the Register is situated within the limits of 1246, the said area is confirmed here.

III. Wet lands depend upon a small Tank. These lands are cultivated annually. The soil is of an inferior quality. It is of a Reger nature. Harvest is good. The wet lands are not cultivated 20 times in any year. The waste is not of an immense extent. The average net profits from this Village are as follows -

Wet (Cultivated)	14-33 at 30 paise per acre	427
Waste	282 at 20 paise	564
Dry	7-65 at 1/2 0 0 0	377
		521

The average rating assessment of 1901 Taluk & the average income of the Remnadar rates prevailing in 1901 Taluk & the average income of the Remnadar on wet lands are given on the back of this Register. The reference to the net profits, & the average rates the valuation is framed.
