

Ref No 821

I Division of the Village in the Ganmanam of Rammanam - Half of the Village is given & the other half was granted for the support of the building of Ganmanamkandan in the village of the same name. This is a permanent grant. No Patta. The Chattram portion is supported by all the accounts of the village. No talker about the area or about the boundaries on the part of the Rammanam. The boundaries now inserted in the revenue statement correspond to those in the account of 1726. Hence the area of the Village is confirmed as 293 ams + 79 fants. Half of the Village belongs to Chattram & half of the lands belong to the Ganmanam.

II As I read that the Chattram is not officinally kept up. I asked the Sub Magistrate of Rammanam to enquire about this & report to me about the state of the building. He enquired the Ganmanam & Village & sent them a reply to me. From this it appears that the Ganmanam was discontinued half century ago in the Chattram, that the Chattram building was ruined entirely without any work since of the building 20 years ago. That the Ganmanam erects a Pondal close to the ruins of the Chattram & keeps therein a Water Pondal & distributes water to the Travellers 6 months in a year annually. I cannot believe this. There is a great complaint here that the Ganmanam is misappropriating the Chattram funds. Even if the circumstances of the Ganmanam causing to keep a Water Pondal during 6 months in a year be true, it is not tantamount to fulfilling the object of the grant. As it is proved satisfactorily that the Chattram building was ruined half century ago, I recommend to resume the Village & incorporate it with the other villages of the family of Chattram. The village of Chattram was discontinued half century ago, I recommend to resume the Village & incorporate it with the other villages of the family of Chattram.

Owing to the inefficiency of the process to meet the charges of Anna Laman, a Water Pandal is being kept. It is possible that the San Francisco Deputy Collector who ascertained the fact of the water Pandal being kept, after the examination of the Mirascales & others, could not believe their assertions. If the Deputy Collector will without clearing such doubtful points by proceeding himself to the spot and without giving credit to the Mirascales, proceed to remove the willages belonging to the Chatham which situate on an imperfect road & a public the charity is indicated, it would result in the benefit of the people. The present of the willages are, as administered, a sufficient testimony that Anna Laman is the above Chatham according to the instructions.
