Lehangudi

1 This one of the Dammassams in the Anniversary of Peranganyar. This was granted by the
- Government. This is a hereditary grant - This is an unimpaired possession of its borders since the date of the grant - This
136 - a Potta on a plain Pagan leaf - The Village is supported by the accounts of 1812 - In the Board Report of 1815 there
it is said that the Potta is a repeated one - This has no Hamlet or Hamlets - The Village consists of 136 Villages or more.
Previous to five years this Village was consisting 80 Villages - They are raised to 136 when the Lands are exchanged previous to five
The lands are ~~changed~~^{all enclosed} once in 12 years in this Village - Five years ago the Lands are exchanged and ~~the~~^{the} ~~abolishing~~^{the} ~~the~~^{the}
the practice of exchanging the Lands - There will be no exchange of lands in this Village as before. Perhaps it paid on the
number of Villages equally & permanently - The person N^o 1 of 1816 acquired the land & later opposite this name about 27 years ago
from his Father in law as bequest with all his real & personal property - He died & bequeathed - The person N^o 1 of 1816 is enjoying the
Lands since the date of the transfer - He is performing the annual ceremonies of the Father in law -
Of the remaining persons, some are aborigines & others are descendants of the former owners of the Original Grants - There is no documentary
evidence to show that the persons above alluded to are true descendants of the former owners but the

Sheet

No. 13

state that the seller never brought money within the time wanted in the said agreement; the lands were not restored & that they are unwilling now to restore the lands to the plaintiff. The agreement shows that the seller is to pay the money back within a year from the date of the sale & that if he fails to do this, the lands are to become the purchase & the Bill of sale is to stand as it is. The lands are now in possession of the purchase since the date of the purchase. As the stipulated period expired 10 years ago, & as the Bill of sale shows that the transaction is an outright one, I see no ground to disturb the transaction along the sale. Hence the claim is rejected & the party is referred to civil court. The person N15 & 25 of 16 are found. The agreement bears the signature of the father's younger brother of the person N15 of 16 - the 1/2 duty is one out of the person N15 & 25. The persons N18 to 25 of 16 say that they are appropriating the lands of the person N15 & 25 of 16. The lands are in the village of Yelavumbalicut & derive again that the lands should be registered in their names. They never made an endorsement of the lands to the person N15 & 25 of 16 in regular way - -

Valuation

Let lands in the village depend upon one tank & moderate size - It is fed by the tank of the Dammasanam village of Kallangudi belonging to the Alabayanams of the village under settlement. That tank is fed by a river known by the name of Vinnalor. The tank of the Dammasanam under settlement is in repair. It is filled annually. No security of water is felt. The lands are cultivated annually in full. Soil is of a superior quality generally. Some of the best lands are full water annually & some - half of the area may be said to be full water 20 times - Some times 1/2 or 1/4 - The full water area varies - some time No Vapour is raised in the village. No grass is grown in dry lands. Dry lands are not cultivated 20 times & no wells in the village - The village is in flourishing state. The lands are good & have no material to enter here the average assessment of the neighbouring four villages - However I have entered the average assessment of the period of 15 years of a Maganama Division, in the which the village under settlement is situated - A Village consists of several Maganams or Divisions - The average income of the Village is 750 - per annum or per centum of the Alabayanams - This is quite a false - Pancha land of the adjacent village "Nagaly" which produce Paddy & Taragu bear much more assessment at 1200 per annum. Inconsideration of the fertility of soil & of the value of the village as follows -
