Water is not felt generally. The sullen of the village claimed $\frac{1}{2}$ of area of wet & $\frac{3}{4}$ of dry as - cultivated lands & the rest as waste - They say that the Waste lands are of 10 years un-cultivated lands & that they are fit for cultivation within the next 4 or 5 years. I doubt the correctness of the account produced by the Villagers, because they say that there is no excess in Wet area above that entered in the stand and Account of F7211 - It is a well known fact that the Account of F7211 or the areas given therein are not correct - it is strange to say that there is no excess above the area given in the said Statement Account of F7211 - However the boundary of this Village wrote a remembrance on the Register that they will pay full Teerwa to Govt if any excess is found by measurement. I find from the results of my digging that the lands claimed by them are not waste - in reality - Some of the Wet lands are cultivated annually & some - Mangah + Panjoh lands are of a superior quality generally - They are black in colour - No Tambore is raised in this Village - X.

+ Subura
zammigen

III This village is enjoyed as shown the margin of the preceding side - The lands are divided & they are exchanged once in 15 years. Porcupa is paid on the members of the village equally & permanently.

IV. The Surnames Nos 1 & 2 of 6 are descendants of the Off. Grantee & others
are Chinese

II The Widow N^o 2 of 016 acquired the 1/8 Village interest in her name from her late Brother
Nayawagen, in A.D. 1856 under a Bill on plantagen leaves - The demand Nayawagen
on the one of the death transferred the 1/8 Village & the property to the Widow N^o 2 of 016 - Leaving
the rest in possession of her Widow N^o 1 of 016 - She died one month after the transfer of the 1/8 Village
to the Widow N^o 2 of 016 - The Widow N^o 2 of 016 is to enjoy the property just as her generation
from generation with the power of alienation - The Vendor & the Widow carried the transaction -
The Widow N^o 2 of 016 is in actual possession of the ^{1/8 Village} ~~land~~ ^{property} since A.D. 1856 -
The father of the person N^o 394 who is was the father's younger brother the Vendor N^o 5 & 6 of 016 & H
inherited half of the Village in A.D. 1827 for Rs. 588 from one A. maswamy Esq. of
Karnool. One bill of sale is on a stamped paper leaf - The seller were descendants of the 1/8 Village
then proved to be from Bonapier by the Widows N^o 1 & 2 of 016 & others -

The person 17 Feb 16 says that his adopted father purchased the $\frac{1}{4}$ Village interest opposite to his name about 3 years
from one of the descendants of the Eagle Grantee - & that bill of sale was lost - The person 17 Feb 16 says that
their grandfather did sell the $\frac{1}{4}$ Village to the adopted father the person 17 Feb 16 -

Wells in this Village depend upon one Tank of moderate size - It is in repair - It is fed by one of the branch channels of "Vaiyagari" - The Tank is filled annually - Scarcely
Water is not felt generally. The soldiers of this Village claimed $17\frac{1}{2}$ acres of land & $5\frac{1}{2}$ acres of dry as - cultivated lands & the rest as waste - They say that the waste lands are of 10 years
uncultivated lands & that they are fit for cultivation within the next 4 or 5 years. I doubt the correctness of the account produced by the Villagers, because they say that
there is no excess in the area above that entered in the standard account of 17211 - It is a well known fact that the account of 17211 or the area given therein are not to be
come - it is strange to say that there is no excess above the area given in the said Standard account of 17211 - However the boundary of this Village wrote a remembrance on the
Register that they will pay full Teemna to Govt if any excess is found by measurement. I find from the results of my survey that the lands claimed by the
Villagers are of a superior quality generally - Some of the best lands are cultivated annually & some - Kanyah & Panjoh lands are of a superior quality generally -
Some of the best lands are cultivated annually & some - Kanyah & Panjoh lands are of a superior quality generally -
