 Average Rates of Government Salaries per Acre
 Bay 1-4-6
 Hill 4-6-1

Average Value of grain of Meluarum on wet land in
 Banam. Consisting of 1000 Acres in the Taluk of Miranod
 for a period of 10 years

The history of the Village of this place is a person of
 the managing committee of the illud...
 the nature of the tenure of the Village...
 tenure of the grant, that the Village...
 may dispose of the Village on the...
 granted by the Government by the bill of...
 entered in the Mattapuram in all the Accounts. The dwelling place of respectable persons here is a
 called here in the part of the country as Mattam. This means that this Village was granted for the
 support of the honing the Cpl. Grant. There was no Mattam for the purpose of this Village
 off reported to any Mattam. Hence there is a person grant. The Cpl. Grant was Bramin. In real
 no Mattam established a Mattam same. Tanjore offered.

Valuation

IV. ... The lands in this Village depend upon Tanthi. They are in repair. They are good for
 Jungle Trees. They are being felled annually in full. 21 Acres of Wet and 10 Acres of Dry
 are being full water annually. The soil is good. The full water early. Some of the Wet
 are full water annually 3 times. Soil is good. The average income of the Village is 16 Rupees
 per annum as per statement of the holder of the Village. This is quite good. The average value
 of the contiguous Aijer Village is stated for a period of 15 years previous to 1827 as
 6 Rupees per acre. In consideration of the quality of soil and the 3 years the holding of the Village
 follows:

Wet - 21 Acres full water at 6 Rupees	126
Dry 7 Acres full water at 10 Rupees	70
	133
Dry 8 Acres at 10 Rupees	80
Dry 9 Acres at 30 Rupees	270
	105-6
Sum of full water	163-5-6
20-12-6
