

Register no. 1210

Aligaturambau

Л. 107 (м. 813) ю

1. This is one of the villages in the pargana of Saranganga. In this village 28 acres of land are Jirmitam & 7 acres are Agan as appears from the Account of 1721. It is said that there is no increase in the Cpl Area - Purnabulke lands belong both to the Jirmitam & Agan parganas. An account forwarded to the collector in A.D. 1850 by the Zamindar it is said that this was granted originally to one Bhagrat Singh in satisfaction of the emoluments of the office of "Manivesty" held by him - & that this was resumed as the income of the pargana was insufficient to cover the Pongu & the emoluments of the office. This remark is written in regard to the Jirmitam in the ~~the~~ Account and is immaterial & ~~it is~~ it is not worthy of credence. The Jirmitam was resumed arbitrarily - From the Jirmitam Purnabulke Accounts of the pargana of Fudhis 1712 572188 from 1720 572264 1727 1728 1730 it appears that the Jirmitam was in possession of the person of 1730 the family of the Cpl Grantee is extinct - ~~Therefore~~ It is not known when the Jirmitam was resumed. It must be assigned to 1730 - The accounts for the period intervening 1731 57255 are not forthcoming. The Jirmitam is entered as Agan Purnabulke in the Purnabulke Accounts of 1755 57270. As the village Jirmitam is in possession of the Zamindar since the last 64 years as it was resumed by him properly - before or after the family of the Cpl Grantee ^{was} extinct I recommend to confirm the Jirmitam to the present Rany on 1/2 Assessment under Rule III Clause 3 - The Rany Bahadur failed to ~~to~~ prove that the village fell in possession of the Zamindar legally - The Rany Bahadur pleads that the Pongu of Rupees 48 of 11 given in the Account of 1721 may be adopted in this settlement - In examining the Purnabulke Purnabulke accounts, the following entries appear & are thereon - (See next side)

Average rates of Government Salage per Acre.
Dry 1-5-6
Wet 4-6-1

Survival of grass of Melworm on wet land in

Kingdom of Kozanum consisting of 9 villages in the Palag of the
same name for the period of 15 years.

71223	3070	20
71224	258	2040
71227	258	
Total		15200

Average Collection — 25-5-6.

I think that the average collections of \$25-50- may be confirmed as the settlement -
- because the entries in the Account of \$124 are not worthy of credence
III No Tell area about the house owners which correspond to those in the Account of \$124 -
- Hence the amounts copied here & the 49 sh & 56 pence are registered here -

Valuation of the Limestone per ton

IV. Wet-lanes in the Village depend upon one Tank of moderate size - It is in repair -
- It is fed by a simple stream - The Tank is filled annually - Out of the 28 Acres belonging to the
8 Acre 40 furlongs are placed as fallowed lands & the rest as waste by the farmers of the Village -
The Range Vakil states that the Farmhouse Account is correct - I measured some of the farms & the
found that considerable excess above the area blithly entered in the ~~same~~ settled Accounts - This is
Germanian ~~and~~ not settled for the last 6 years - The results of my enquiry go to prove that the farmers
exaggerated the netting Waste - It is said that in the Village, ~~there are~~ no arable dry lands -
The average income of ~~the~~ the First town portion is 50 Rupees per acre as per statement of the Farmhouse
From this it is evident that the matter of waste has been exaggerated by the Vakil &c. The average ~~Settled~~ ~~assess~~
of the Village ~~now~~ calculated for a period of 15 years previous to 1270 comes to 5-59 -
The contiguous Aggar Village is Pongjow - The average ~~Settled~~ ~~assess~~ of that Village for the same period is
6-4-3 per acre - Pongjow rates vary from 1-2 to 5-13-6 per acre - The ~~and~~ ~~of~~ the Village is not
very superior quality - The soil of the Village may be classed on par with that of the contiguous Aggar Village
In consideration of the partiality of soil &c. I frame the valuation of the Village as follows -
Wet 16 A. fallowed at 5/2 ~~per~~ 88
Wet 12 A. Waste ~~per~~ 12
Fallowed at 10/2

CD-16 to fulltime at 5/12 reg — 88
