1 This is one of the Villages in the perramian of Ponganga - It appears that this was granted by the ~~18th~~ ^{18th} Rajah of 1814 to whom, when it was granted, is not known - This is a hereditary personal grant - This is entered as Darmasaram in all the Accounts - In the Montha Account of 1823, this Village is entered in the name of one Monosala Mayen -

In the alleged Account of 1722, the Village is entered on the main of the Bay of Fundy. No Talk was about the Area or about the boundaries on the part of the Range Valley as they correspond to those in the Account of 1724. Hence the boundaries are confirmed here & the 96 Acres & 12 Acre situated there are registered here. In the alleged Statement Account of 1721, the Purchase of this Village is entered as 1728. But from time immemorial, a sum of 1928 is collected. No Talk was about this on any side.

Sheet No. 1113

The persons N 576 of 016 are undivided Brothers. The person N 576 of 016 purchased one half in AD 1838 for Rs 77 from one Raja Subbayan - a descendant of the Cpl. G. Prad. Bell of sale is on a plain leaf - Transactions proved to be bonafide - Enjoymt proved.

The ancestor of the person N 576 of 016 purchased 7 Vethus in the Village viz. only one of 1785-8508 for Rs 300 - and sold of which 2 Vethus to the person father of the person N 576 of 016. Four bills of sale are on plain leaf in leaves. The sellers were Puthara Subbayan, Ponnachadayan, P. Athathri Agum, N. Annaswamy Agum, M. Subbayan & Rajaswamy Agum descendants of the Cpl. G. Prad. Enjoymt proved. Transactions proved to be bonafide by the tradition &c.

The Village consists of 8 equal Vethus. They are enjoyed as shown in the margin of the preceding side. The lands are divided - Pongu is paid on the number of Vethus equally & permanently. It is evident that the name of the Village is not given in any account as the Village was always in possession of the person N 576 of 016. The name of the Village is not given in any account as the Village was always in possession of the person N 576 of 016.

Let lands in the Village depend upon the number of Vethus. The lands are divided - Pongu is paid on the number of Vethus equally & permanently. It is evident that the name of the Village is not given in any account as the Village was always in possession of the person N 576 of 016.

3 Acre of Dry as waste & the rest as cultivated lands. They say that these waste lands are of long standing. That the wet lands are not cultivated within 10 years - & that the dry lands are unfit for cultivation for the present. The result of my inquiry goes to prove that the holders of the Village exaggerated the matter as usual. Some of the wet lands are cultivated 2 times annually - Mangal & Pongu lands are of a superior quality generally. About one Acre of Dry is cultivated with garden crops.

The Village is in pretty good state. It is said that not any portion of the Dry lands is fit for cultivation. The average income of the Village as per statement of the holders of the Village is 1400 Rupees per annum. This is not true. The contiguous Agum Villages are Talukal & Ponnachad. The average wet amount of these Villages is 7-10 & 3-15 per acre respectively. The average dry amount is varied from 2-3 to 8-10 per acre. The highest rate is charged for Cotton - This is not grown in the Village.

The Villagers say that the soil of the Village may be classed on par with that of the Village of Ponnachad. The average wet amount of which is 3-15 per acre. The Tanks in the Village of Ponnachad are in ruins since long - of very few lands (2 or 3 Acre) are cultivated annually there. Hence the Village under settlement could not be placed with the nearest Village. From the details of the income given by the villagers themselves, it appears that the sum of Rs 160 stated to be their income is false. The average wet amount of Talukal is about 7-10 per acre is high. In consideration of the fertility of soil &c.

I propose the valuation of the Village as follows -
 Wet 38 Acre cultivated at 6 Rs per Acre 2472
 Wet 25 Acre cultivated at 11 Rs per Acre 2750
 Dry 2 Acre cultivated at 8 Rs per Acre 160
 Total 5282
