V. - - The persons 12-3-4-5-6-7-9-10-11-17-18-19-20 of 16 acquired the lands entered opposite to their names in the following headed "supported by documents" in the preceding side, partly by purchase & partly by gift in 1766-1784-1789-1790-1797-1803-1831-1832-1833-1836-1838-1839-1845-1852-1854-1858 & 1864. from one Narayana Bhatter Ruppammat.

Purna Narayana, Venkata Ram, Hanishudrayan, Sundara Rajayan, Danushkotingan, Parvathayya, Parameswarayan, Ramasubrahmanya, Valera Bhatter, Lakshminarayana & others

Twenty two bills of sales are on plain paper leaves. Two bills are on stamped paper. One deed of

gift is on plain paper leaf. The genuineness of the old documents is admitted by all the Mahajanams.

The value of the lands purchased is 710 Rupees. The persons 12-3-5-6-7-8-11-12-13-14-15-16 are enjoying 4 odd bhattas without documents. The Mahajanams say - in one & on single tone that these ancestors of these persons acquired the lands entered opposite to their names in the preceding side partly by gift & partly by purchase.

Enjoyment proved - All the above transactions proved to be bona fide.

Valuation
VI. - - - - Wet lands in this village depend upon one tank of moderate size. It is in repair. But the Mahajanams say the tank is in a weak state since the last 8 years when it was washed away by floods. & that they are repairing the tank annually. The tank is filled annually by a single stream & by the waste water of the adjoining villages. The tank is filled annually. Scarcity of water is not felt much. The Mahajanams claimed 66 Acre of land as waste & 28 Acre of land as full watered land. They say that at the time of the settlement before them that about 50 Acre of land are full watered annually. & that 26 Acre of land are full watered

waste fit for ^{use within the next 10 years} & that the Dry waste lands also are fit to be cultivated within the next 10 years. The Mahajanas exaggerated the matter of waste in the first instance. I don't believe the statement of the Mahajanas that the waste lands that were not brought under plough during the last 10 years will be brought under plough within the next 10 years. Some of the wet lands are cultivated annually 2 times. Garden crops are raised in one here. Mangrove & Pongah lands are not of a very superior quality. Mangrove lands are cleared. The Village is on the whole in a good state. I found really very difficult to find out the true state of the Village as the Mahajanas are very obstinate & they began to state much falsehood. The Mahajanas say that not any portion of Dry lands is fit to be converted into wet. The average income of the Village is per statement of the Mahajanas is 14,600 Rupees per annum. This is quite untrue. The contiguous Ayer Villages are Nangabatur & Kandani. The average white assessment of these two Ayer Villages each is 6705 & 6710 per acre respectively. The average Dry assessment varies from 147 to 0735 per acre. In this Village "Adungorewal" or rough black paddy is sown in Dry lands situated close to the bed of the Tank. The extent of Dry lands thus cultivated is said to be 20 acres. These lands are included in the Dry cultivated area. The soil of this Village may be placed on par with that of the contiguous Ayer Villages. In consideration of the above circumstances I frame the valuation of the Village as follows:-

Sheet No 1573	Wet 50 acres cultivated annually at 6 Rupees per acre	300
Register No 1371	Wet 21/2 acres Waste of paddy standing fit to be cultivated at 10 Rupees per acre	215
	Dry 70 acres cultivated at 12 1/2 Rupees per acre	8750
	Dry 16 acres Waste at 4 Rupees per acre	64
	Garden lands (1) one acre at 4 Rupees	4
	Total	419-12-0
	Remained	12966
	Handwritten signature	

III One Subbaram arayan alias Pitchevarayan of farms 6 1/2 Vutties from the year 1806 by name that he purchased them in A.D. 1863 from one Vala Vayyan. He admits that he has no enjoyment of the same & that the year 1806 is enjoying them improperly. It is proved that of these 6 1/2 Vutties, 3 Vutties are in possession of the year 1806 & 1/2. In witness of an agreement executed about 25 years ago by his father young arayan & that the remaining 3 1/2 Vutties are in possession of the year 1810 & 1/2 who purchased them from Vayyan about 7 years ago. The agreement bears a full date for these 6 1/2 Vutties from Vayyan who had no right to sell them. Hence the claim is rejected & the party is referred to the civil court.
