Register No. 836

Family the father
amongst
the children
one of them
in the village
of Sivaganga
in the Taluk of
Partipharur

The person No 2-9-22-23824 of 16 ^{old account 24} purchased some new lands -
in gift & some by purchase in 1807-1814-1816-1817-1824-1829 & 1832.

The purchased sum was 1206 - from certain shareholders in the Village -
The ancestors of the Rang of Sivaganga who purchased 1/4 of the Village or 8 shares

at Pongor long ago - ~~the Rang of Sivaganga~~ The Malabarans admit that transactions -
which they provided - These lands were in possession of the Rang with other property till
they fell in possession of the Rang a few months ago under a recent decision of the

Princely Council - From the documents produced by the
Rang's Palace after I wrote the above, it appears that these 8 shares were purchased by Velu
Nathiyar, settling the Rang Taluk in 1814 & 1825 for Rs 520 from Rangamangalam
Taluk. These bills are old plain paper leaves - Malabarans
omit the genuineness of these documents -
These documents were always with Rattamall Nattam

II The Malabarans produced first, the Register of the Village with the following entries -

Cultivation } Wet - 56-88-
Dry - 14-48-

I got the cultivated lands measured as the Malabarans claimed considerable extent of
Arable lands as in arable land with the Rang of Pongor & it will be encouraging -
The dishonest Malabarans in giving such false accounts as if I keep silent & pass -
the records of some relations ~~the Rang of Sivaganga~~ ~~the Rang of Sivaganga~~ ~~the Rang of Sivaganga~~

The results of the measurements stood thus -

Sheet No. 986

Cultivation } Wet - 88-42-
Dry - 11-87-

The Malabarans admitted the correctness of the measurement & signed the measurement -
Certificate. Hence the measurement account is accepted in the settlement only regarding the -
cultivated lands - It is strange that a false account was produced for the Village in which
the Rang holds 1/4 Village. The Rang's men leave every thing to the Malabarans who are
considered to be well acquainted to play tricks in preparing Registers &c.

III The lands in the Village depend upon one large Tank. It is in repair - It is fed by Dugle -
the stream & by the Canal taking the important Tanks of the adjacent Rang Villages of
Pongor &c. The Tank is filled annually. Scarcity of water is felt generally -
