Average Value of grain of Milmarum, on wet land in Valandrie Mahanum. Consisting of Apper Villages in the Talug of Mangalam for a period of 15 years

From $\frac{1}{2}$ 1250	Cultivated area in Acres	Crops out there	of which zamindar shares at 45 per cent	Average prices of grain	Value of quantity of grain given in col. 4.	Rates per Acre
To $\frac{1}{2}$ 1270						
Rs m p	A B	Rs m p	Rs m p	Rs A 0	Rs A 0	Rs A 0
11864 - 2 - 4	8304 - 93	87278 - 4 - 3	39409 - 5	1 - 8 - 7	60522 - 9 - 4	7 - 4 - 9

The account of F1223 above alluded to is ~~the~~ the one prepared at the time of the preparation of the English account of AD 1875. Several important Villages are omitted from this account. You can want of mention of several important Villages that were situated at Durness from times immemorial are entered there. The Name's I have given to prove by any other account or that that of F1241 that this is a proper Village -

II. No Tall area about the area or about the boundaries on the part of Le Range's Valuel -
The boundaries correspond to those in the Patent & in the Account of 1823. The boundaries
inserted in the Account of 1844 differ from those in the Account of 1823 & in the Patent. These boundaries
are said to be out of the same in the spot. The Surveyor of the Village says that if any difference is found
in these boundaries, he will guide by the one which might be selected by the Government as an accurate one.
Under the area of 70 acres & of 1/2 acre is another area -
III. In 1845, the person No. 1 of 186 purchased the entire Village in A.D. 1845 for Rs. 1000 -
Ground Son of the person No. 13 -

Answer the area of 70 acres of uplands is correct here -
III In A.D. 1848, the person No. 1 of 6 purchased the entire Village in A.D. 1848 for Rs. 4200 from one Kallamangar alias Arantakistiyengar & Grand Son of the person 13 -
Bill of sale is on two one stamped paper leaf - Remission proved to be bonafide - Enjoined proved -

Salvation

IV. Wet lands depend upon one Tank of moderate size. It is in repair. It is fed by a Long & Short
 The Tank is filled annually. Security of Water is not felt generally. The person N^o 1 of 1866 perceives that all the
 Wet lands are cultivated annually in fall & that some are left waste security. Again he says that near Pungala
 lands of 6 3/4 acres are cultivated as that which is. Some of the Wet lands are cultivated ~~annually~~ 2 times - occasionally
 Mangala & Pungala lands are not of an equal quality generally. No Revenue is raised in this Village.
 The contiguous Ayer Villages are Roudampharas & Apalanda Rasas. The average land assessment of
 these Villages calculated for a period of 15 years previous to 17270 comes to 6-5-6. & 57270 per acre.
 The average of these two Villages comes to 6 Rupees per acre. The person N^o 1 of 1866 says that the soil of this
 Village may be placed on par with that of the contiguous Ayer Villages. The average dry assessment of
 the adjacent Ayer Villages varies from 11 to 0136 per acre. The person N^o 1 of 1866 estimates 62 Rupees as the
 average income. This is quite false. The Village is in pretty good state. In consideration of the fertility of the
 I frame the valuation of the Village as follows -
