Registered Devadayam Villages of Asayakattayendal (1), Mitanendal (2) & Katchayendal (3) in [illegible] gunga Zemindary

Asayákattayendal, Mitanendal & Katchayendal

Register Nos. 1006, 1007, 1008

1 These ~~are~~ 3 Villages are situated in the Zemindary of Sevagunga – They were granted by Muchukunda Chakraverty for the support of the Temple of Mala Mela Marundeswarer in Periyur & of Periya Vadya Nayanár in Vadugampatti – These Temples have several other villages besides these & the names of which are given in the margin – These are permanent grants. No Potta. The Temples are efficiently kept up – In the Account of F1211 these 3 & 23 other Villages are entered in the name of Periya Vadya Nayanar ~~[illegible]~~ & 8 ~~[illegible]~~ Villages are entered in the name of Marundeswarer's Temple as will be seen from a list given on the back of this Register – In the Maratta Account of F1224 & in the English Register of A.D. 1815, these 34 villages are entered jointly in the names of both of these Temples – The Zemindar settles these 34 Villages as one annually though they are not contiguous to each other & though they are distinct villages. Poruppu of Rupees 553-9-5 is collected in lump on all the villages. Again these villages are entered in lump in the names of both of these ~~villages~~ Temples – In the Account Current & the Rany's Vakeel states that the proceeds of these 34 villages are appropriated equally to the use of both of the Temples which are situated at a distance of about 2 miles from each other & that this arrangement is in force from time immemorial – As the Account of F1211, in which 26 Villages are entered in the name of one Temple & 8 in the name of the other, is not trustworthy, all these 34 Villages are registered jointly in the names of both of the Temples – with reference to the Zemindar's Accounts – The boundaries of these villages are not recorded in any of the Accounts – These 34 Villages ~~are~~ are divided into 8 Ravanams or Divisions as shewn in the registers of the said Ravanams & recognized boundaries ~~are given~~ of the same are given in the vernacular statements – The Ravanams are formed as the Curnum was unable to give the boundaries of each ~~of~~ of these villages – Each Ravanam consists of cluster of villages situated contiguous to each other – No Talk was about the area or about ~~the~~ confirming the recognized boundaries on the part of the Rany's Vakeel – Hence the boundaries are confirmed here & the – 28 Acres & 29 Cents situated therein are registered here –

These remarks apply
to all the Villages
placed with this
& to the villages
[illegible]
