Valuation

IV Wet lands depend upon one Tank of moderate size. It is in repair. It is fed
by a single stream. The Tank is filled annually. Scarcity of water is not felt generally.
It is said that 33 ams of water are fullwater annually in addition to 20 ams of dry. That 3 1/2 ams of
water are of long water. 5 ams of water. Some of the wet lands are fullwater annually
2nd time. Mangala & Pungala lands are of a superior quality generally. The Village is in pretty good
state. The average income of the Village as per statement of the Malagunnam is 1000 Rupees per
Annum. This is not true. There are no other villages contiguous to this Village. The Village
of Ponnakulam & Muttogolam are situated at a distance of two miles from this Village.
The average wet annual of these villages comes to 5 1371 1/2 & 8 132 per acre
not contiguous other villages. The average dry annual of these villages from 2 to 5 0
In consideration of the fertility of soil &c. I frame the valuation of the Village as follows

Wet 32 ams fullwater at 600 per acre 192-
Wet 3 1/2 ams water at 100 per acre 3-8
Total 195-80
Dry 20 ams fullwater at 100 per acre 20-00
