Gipsen Stetlet 58 17. 19. 86

It is one of the Damosasams in the panyang of Peropangai. This was granted by Mahabharana Rajah to the Bramins of various families
of Nana Gotra & Nana Putra through Perumal Iyengar. This is a hereditary grant. It is in uninterrupted possession of its holders since the
date of the grant. This is no Potta. It was lost. One of the & another Village known by the name of Pererang & Nattam is entered in Zamp as
all the accounts though the Villages are separate from each other & though they are held by the persons who are unconnected with each other.
Now the area of these Villages is split on the consent & request of the holders thereof with reference to the area on which originally Pongu
was levied. Thus the agl area of the Village ~~was~~ came to 66 acres & 27 Cents. Pongu of papers 15 20 3 is paid for this Village distinctly.
The boundaries of this & those of the Villages of Pererang amattam & Kallakalelu are given on lump or in other words one boundary line
was drawn enclosing the lands of these 3 Villages. The holders of this Village entered the boundaries thereof now in the permanent material with
reference to their enjoyment. The Panyang & Pakel gives no fault with them. Hence the boundaries are confirmed here & the 66 acres &
27 Cents situated within the said boundaries are registered here.
The Village is enjoyed as shown in the margin. The persons Nos 1 2 & 3 of 16 is enjoying $\frac{3}{4}$ of the Village & the persons Nos 4 to 13 are
since divided. The

III. Wet lands depend upon one Tank of moderate size - It is in repair - It fed by a Temple
Stream - It is fed also by the Waste Water of the Ayer Village & Muttarasam. The Tank is filled annually -
security of water is not felt generally - Wet lands are cultivated annually in full - It is said that the 23 Ann
of Dry Season was not an "Utatunkad" - Some of the Wet lands are cultivated annually & some - No Taxation is raised.
The Village is in pretty good state - The contiguous Ayer Village is ^{also} Rorajay, Muttarasam & Periyattal.
The average Wet assessment of these Villages calculated for a period of 15 years previous S.T. 70 & 80 is as follows -
4-10-7, 7-3-7, 8-5-7 & 10 per ann respectively. The gross average of these 3 Villages comes to 60 Ann per acre.
The average Dry assessment ~~is at 12-0 per acre~~ is at 12-0 per acre - The Dry & Wet soil is of a medium fertile nature.
The Akkaraman says that the soil of this Village might be placed on par with that of the adjacent Ayer Villages.
In consideration of the fertility of soil & I presume the valuation of the Village as follows - The average value
of the Village as per estimate of the Akkaraman is 50 Rupees per ann. This is not true -
Wet 7 1/2 ann Wet Cultivated at 60 Rupees per acre - 46-0
Dry 30 ann Cultivated at 12-0 per ann - 37-12-0
Dry 20% in Wasteland at 4-00 per ann - 5-9-0
Total 89-11-0
