From $\frac{H}{1250}$ to $\frac{H}{1070}$	Cultivated area in Acres	Grassland turn	Of which gamagrass about 45 percent	Average prices of grain	Value of quantity of grain given in Col. 4.	Rates per Acre
$\frac{H}{8265} - \frac{H}{103}$	$\frac{A}{5786}$	$\frac{C}{02}$	$\frac{H}{51654} - \frac{H}{2}$	$\frac{H}{23391} - \frac{H}{1-1}$	$\frac{Rs}{1-8-3}$	$\frac{Rs}{25518} - \frac{A}{9-2}$

IV One Subbramaniam a Pillai, Attambakam Pillai & Nagalingam Pillai, ~~sons of~~ grand sons of grand sons of the Ogl Grantee claim to this Village by reason that ~~the~~ it was resumed by the government arbitrarily - As it is plain from the foregoing circumstances that the Village was ~~and~~ ~~the~~ resumed of the prison for a long time & that it was resumed by the government under the sanction of the Collector and in A.D. 1853, the claim injected - From the said reports of the District Officer & Assistant it appears that ~~the~~ a relative of the Ogl Grantee who was holding the Village gave Razeemah to the Ist. Thannam person. The Razeemah is not forth coming - Hence the Village is registered in the name of the Razeemah.

The Devarat amma Taneloo in his reports above alluded to stated that his Village is again
yielding 600 Kallen of grain all the year round. The value of this quantity is 1800 Rupees at
the present state of the market - at 3 Rupees a Kallen. Even if this quantity is sold at 1000
per Kallen, the income comes 600 Rupees per annum. Now as the lands are of long waste -
I doubt whether it will be just to value the Village at 600 Rupees. However as the lands will be
brought under plough early I recommend 3 Rupees to be charged 3 Rupees per acre in consideration of the
troubles & expenses to which the Government will be subjected in doing the same. Thus the value of the Village
comes to 207-16-8. Now the Taluk reports that 270 is collected on the Village annually
on certain trees. When the Village is improved the Government will derive considerably profit from
the Village. I am recommended to confirm the Village to the Rango of the Government as it respects the
predecessors by legally under the order of the Collector in satisfaction of the claims of the
In the Revenue Account of the Rango of the Village is given as the Rango of the Village. The Rango of the Village
was collected at the Village was in possession of the family of the Rango of the Village. The Rango of the Village
pleads that as the Rango of the Village was in possession of the family of the Rango of the Village. The Rango of the Village
which is stated in the Taneloo's reports above alluded to that the Rango of the Village is 78-11-2. (X)
