This is one of the villages called Dammias as seen in the former map of Tenasserim. This was granted by the Government of 1811 to the person of 43 for subsistence. This is a hereditary grant. This is an uninterrupted possession of its holders since the date of the grant. This has a Pottah on a copper plate. From the English account of 1815, it appears that this document is a registered one. The Range Tahsil accounts the genuineness of the Pottah. No talk was made about the taxes or about the boundaries on the part of the Range Tahsil. The boundaries correspond to those in the Account of 1815. The boundaries in the Pottah are the same as those in the Account of 1815. The boundaries in the Pottah are the same as those in the Account of 1815.

Valuation

III - --- Wet lands depend upon two Tanks. Of these one is large & another is small. They are in repair. They are fed by a Temple Stream & by the waste of Water of Teruvilly Diemasanam. The Tanks are filled annually in full. Scarcity of Water is not felt generally. No Pongol full water at all in this Village. Some of the Mahayanas who appeared for settlement say that 60 Acres are full water annually, of Wet lands, & 20 Acres as Matted lands. This is not worthy of reliance. Wet soil is of a medium character generally. Some of the Wet lands are full water annually & sometimes occasionally 2^d time of year. No Vambur is raised in this Village. Harvest is good generally. The average income of the Village as per statement of the Mahayanas who appeared for settlement is 1720 Rupees per annum. This is full of lies as will be seen from the extent of Wet lands & the contiguous dry Villages are Alathalam & Papannur & Adambur. The average Wet amount of these Villages is 582, 684 & 164 respectively. The Mahayanas say that the soil of the Village may be placed on par with that of the contiguous dry Villages. The Village is in pretty good state. In fact the average Wet amount of the said dry Villages is low. In consideration of the fertility of soil & I frame the valuation of the Village as follows. I doubt that the Mahayanas concealed some of the Wet lands. But they assure me that they never did so. In consideration of the fertility of soil & I frame the valuation of the Village as follows.
