10. Wet land depends upon on tank of moderate size. It is irrigated by a branch channel of Nalabandi. The tank is filled annually. The main reason is that the wet land does not waste as 10 year unproductive lands as that the dry land does not waste as 10 year unproductive lands. In the neighboring villages repeat the same work. 1/8 or 1/9 of wet area is said to be cultivated annually in time. Scarcity of water is felt in some years. Soil is of a medium character generally. It is moderate. The village is some
