[illegible]

This is one of the Dammassann Villages in the Remondang & Levayunga - The was granted for the support of the Temple per folio 13^r. It is entered as Dammassann in all the Accounts of No 80 Patta. The Village is in uninterrupted possession of its holders since the date of grant. No talk now about the boundaries on the part of the Rango's Vokkal - The boundaries correspond to those in the Account of H 264. Hence the area of 11 Awa & 42 fads is enough here - This village consists of 12 equal Vallies they are enjoyed as shown in the margin. The lands were divided from anciently forty years ago - Porcup is paid on the number of Vallies equally & permanently. The boundaries of this & another Dammassann Village of Kethkidi as given as one - while the boundaries are given distinctly in the Account of H 266. The Chozarawans say that the boundaries in the accounts of H 223 as one Village & those given in the Account of H 266 as two villages are one & the same over the spot.

The persons Nos 158 of old are descendants of the Ogl Grantee they are ~~not~~ related to the fol 13. This Village was granted to the King fol 13 & after. The persons Nos 158 of old are descendants of one of the Ogl Grantees - This is proved by tradition &c.
