Kannur
I. This is one of the Dammamamas in the permission of Periyar. This was granted by the permission of 11 to the person of 13 for subsistence. This is a permission.
grants. This is in uninterrupted possession of its holders since the date of the grant. This has a Pottu on two plain paper leaves.
This document was registered in 1811 in the Periyar Court of Justice. This is proved by a ticket granted by the Registrar of the Court to the permission of the
Village. No Lakshmi about the area or about the boundaries on the part of the permission of Vakkal. Since the area of 30 and 94 feet is confirmed by
the permission of the court correspond to those in the account of 77244 and the Pottu -
the permission of the court correspond to those in the account of 77244 and the Pottu -

The Village of Tak is about the size or about the boundaries of the village of Tak in the account of 1724 & in the Polls - The boundaries now presented in the Land and Water Survey correspond to those in the account of 1724 & in the Polls - In the account of 1723, the boundaries of the Village are given. They differ slightly from those in the Polls in the account of 1724 - The boundaries in the Polls which are supported by those in the account of 1724 are confirmed here - The Village consists of 6 equal Villages. They are enjoyed as shown in the margin - The lands are divided permanently - Porcupine is paid on the number of Villages equally & permanently - The Village of small size. It is in repair - It is paid by simple stream - The Village in the account of 1724 says that the waste lands, 1/2 acres in the Village & that these Pargana also - lands may be brought under cultivation if they exert themselves -

The village consists of 60 small huts - they are enjoyed as shown in the drawing.
The houses are built of mud & are very low & narrow.
The houses are built of mud & are very low & narrow.

Value of grain of Meluaru on wet land in Malak Majanins
 Consisting of 12 villages in the Taluk of Nattarasani Kottai
 For a period of 10 years

From 1256 to 1270	Cultivated area in Acre	Crop sown	of which grain is sown at 45 percent of grain	Average price of grain in Acre	Value of grain in Acre	Rates per Acre
6795-11-2	4757-09	51679-6	22986-5-1	1-7-11	35221-2-3	7-6-9

They again say that the remaining lands are cultivated annually -
 Some of the lands are cultivated annually - Soil is of medium character generally -
 Security of Value is not felt generally - No Taxation is raised in this Village -
 No Rincelands in the Village - The average income of the Village as per statement of the
 village is 6500 per annum. This is not true - The foregoing of the Village is
 Paragary - The average value of the Village calculated for a period of 10 years
 from 1259-1263 & from 1266-1270 comes to 13- per acre
 Detailed accounts are available only for these years -
 The average of 10 years is somewhat high - I have adopted generally the average -
 The consideration of the fertility of soil & the value of the Village as follows
 Wet 21 Acre Cultivated annually once & partly 2 times } 105
 at 5 rupees per acre -
 Wet 4 1/2 Acre whole of long standing at 1/2 rupee } 2-4-
 per acre
 Total - 107 4-0.
