Average Value of grain of milwarms on wet land in Kodavadi
Mudhanam Consisting of Ayra Villages in the Talug of Kaimur.
For a Period of 15 years

Year	Cultivated area in Acre	Gross milwarms	Of which grain is shared 45 per cent	Average Ratio of grain to gross	Value of grain in Rs & P	Ratio of grain to gross
1871	56	25227-11-3	11085-11-	1-7-9	16487-5-	6-9-9
1872	56	2496-37	11085-11-	1-7-9	16487-5-	6-9-9

III The ancestors of the persons of 15-6-7-16 acquired these lands in gift long ago from one of the shareholders in the Ayra - No documents. The persons of 1-2-3-4-7-16 admit the transaction. Enjoyment proved. The person of 9-16 acquired his lands in gift in A.D. 1857 from one Annamalai. Enjoyment proved. The person of 15-16 said of gift is on a plain paper leaf. Transaction proved to be bonafide. Enjoyment proved. The father of Muttukama father of the persons of 10-11-16 purchased the lands in A.D. 1807- for Rs 57-5- from one Nolandamalai Pillai & by about it was purchased from one - Annamalai & in A.D. 1755 & 1760- for Rs 30- Four bills are on plain paper leaves. The genuineness of these documents is admitted by the persons of 16. Enjoyment proved.

Valuation

IV. Wet lands depend upon two factors of moderate size. They are in repair. They are fed by Jungle Streams & the tank is filled annually in ordinary season. Scarcity of water is not felt generally. The Muttukamams say that 2 acres of wet & 16 3/4 acres of dry (planted as waste) are long unencultivated lands fit to be cultivated. Loss of the wet lands are not full watered 2 times. Wet & dry lands are of arduous character generally. The village is in good state. The contiguous Ayra village is Vairi K. aruppu. The average wet assessment of the village calculated for a period of 15 years from 1258 to 1261 & from July 1263 & from July 1265 to 1270 comes to 500 per acre. The Muttukamams say that the lands of the Dammaramam under settlement may be placed on par with those of the Ayra village in question. The average dry assessment of the contiguous Ayra village is 1-2- per acre. The average income of the village as per statement of the Muttukamams is 9600 per annum. This is not true. In consideration of the fertility of soil &c, I give the valuation of the village as follows -

XXXX Detailed accounts are available only for 15 years.

Wet 17 acres full watered annually at 500 per acre 8500
Wet 2 acres waste at 100 per acre 200 8700
Dry 30 acres full watered at 12 per acre 360 33-12-
Dry 16 acres Muttukam at 1/2 per acre 8 33-12-0
