Reduced from the statement &w paper produced
by the incognans.

1. History of the Damayanams in the genuine story of Perampuzha. This was granted by the government of 11 to the person of 13 for embankment -
This is a hereditary grant. There is an uninterrupted possession of its holders since the date of the grant. This has no Patta. It was lost. The Village is supported by all the
Accounts of 12. It is taken about the area or about the boundaries on the part of the Plains Taluk. The boundaries correspond to those in the Account of
14. Hence the area of 13 acres & 4 Cents is unaltered here. The excess is situated within the proper limits of the Village.
This Village consists of four equal Thottas. They are enjoyed as shown in the margin. The lands are undivided. Porus is paid on the number of Thottas equally &
annually. The persons of 16 are divided ^{into} ^{the} ⁴ ^{parts} Brothers. Their father purchased the Village, they say, in AD 1841 for Rupees 91 from one Perma Velayudham, &
one Vira Tevin, Thottas Chappam. Bill of sales on a plain Cochin leaf. The father purchased the ^{1st} ^{1/4} of the Village in AD 1800 for Rupees 22-14. From
Dagasammy Iyer. Bill of sales on a plain Cochin leaf. No witnesses to prove the genuineness of these bills of sales -
The persons of 16 ^{and their ancestors} ^{the} ⁴ ^{parts} pleaded that they purchased the remaining ³/₄ of the Village long ago & that Bills of sales were lost. The persons of 16 produced a Bundle of receipts
50 years granted by the government servants for the payment of Porus but no name of the ancestors of the persons of 16 are given there. It is said that the
receipts were granted to the Mahayanams of the Village.

However it is proved by the creation in that the persons of 16 are in possession of the village since long & as there is no document to prove the right of the 16, I recommend to confer the village upon the persons of 16 on 1/2 of assessment.

II. Wet lands depend upon one Tank of moderate size - It is in repair - It is fed by Pungle Stream - There is an insignificant Village - Wet lands are cultivated annually & in full - Some of them is cultivated annually & twice - Soil is of the medium character. The average income of the Village as per statement of the Mahajanams is 16 Rupees per annum. This is not true. In consideration of the fertility of soil & I frame the valuation of the Village as follows - Dry lands are of long waste fit to be cultivated in future -

- 5 1/2 Acres of Wet. cultivated annually once & partly 2 times
 at 5 1/2 Rupees per acre 30-4-0
 Dry 2 1/2 Acres. Rents at 4 Rupees per acre 09-0-0

Rent due
 16-36-0

Total - 30-13-0
