No 1. is enjoying	"	1/4	"	"	1/4
No 2 Do	"	"	1/4	"	1/4
No 3 Do	"	"	1/4	"	1/4
No 4 Do	"	1/4	"	1/4	1/4
	"	1/4	3/4	1	"

I This is one of the villages in the Zamindary of Shevagunga. This was granted by the Rajah, Column 11 to the person, column 13, for Subsistence. This is a hereditary grant. This is in uninterrupted possession of its holders since the date of the grant. This has no Pattah. It was lost. The Village is entered as Dharmasanam in all the Accounts. No Takaran about the area or about the boundaries on the part of the Rajah's Vakeel. The Boundaries now inserted in the Vernacular Statement correspond with those in the account of Fasly 1246.

Hence they are confirmed here and the 27 Acres 4 40 Cents situated therein are registered here.

II This Village is enjoyed as shewn in the margin.

III The persons, Column 16, are not any way related to the original Grantee. The wife of the person No 1, Column 16, says that she purchased 1/4 Village in A.D. 1858 for Rupees 210 from one Setty Nachiyar. Bill of Sale is on Stamped Paper. It is not known how others acquired the remaining 3/4 Village. The holders of the Village just produced Accounts long ago and disappeared. They never attended though the Village has been placed under attachment, inspite of issuing several Summons upon them. No 2 Column 16 is the Rajah of Shevagangah. Their Vakeel says he cannot say how the 1/4 Village was acquired and when it was acquired. The family of the Original Grantee is extinct. Under these circumstances I recommend to confirm the Village to the present holder on half assessment. I requested the Collector to release the Village from attachment.

IV Wet lands in this Village depend upon Tanks. They are in repair. They are fed by Jungles Streams &c. Soil is good. Most of the Wet lands are cultivated annually. Some of them are also cultivated 2 time. Dry lands are said to be of long waste & fit to be cultivated. The average income of the Village is 65 Rupees per annum as per Statement of the holder thereof, this is not true. The contiguous Ayen Village is Vizayangady. The average wet assessment of that Village is 6 2-1 per acre. Dry rates of assessment vary from 1 4 " to " 13-6 per acre. The soil of the Village is not any way inferior to that of the contiguous Village. In consideration of the fertility of Soil &c. I frame the Valuation of the Village as follows.

	Rs	As	P
Wet 14 Acres cultivable at 6 Rs	84	"	"
Wet 4 Acres 28 Cents waste at 1/4 Rupee	1	3	7
Total	85	3	7
Dry 3 Acres 92 Cents waste at 4 Annas per Acre	"	15	8
