IV... The Village enjoyed as shown in the margin of the preceding side - The land is and is -
 - Pore is paid in proportion to the share enjoyed by the persons N 153/016 -

Valuation

IV... Wet land in this small Village depends upon one small Tank. It is in repair since the
 - last 3 years - Before which the Tank was in ruined state & the lands were waste for a period of
 20 years from the negligence of the holders thereof - After the persons 6-7 & 8 of the village acquired the share
 in the Village, the Tank was restored & the lands are being brought under plough
 - Now 2 1/2 acres are under plough & the remaining lands will be brought under plough -
 - gradually within the next 4 years - Wet lands are not of a superior quality - Soil is of an inferior
 quality of "Kariel". Wet lands are not cultivated 2 times - The average in case of this
 Village is said to be 30 Rups per annum Pore is paid to the zemindar without an area -
 - The consideration of the fertility of soil & the improvements to be made hereafter in the Village
 - I frame the valuation of the property as follows - The fortignous Appu Village is supposed to be
 The average value of the Village comes to 8.75 11 per acre - This average is calculated for a period of
 - 15 years previous to F/ 1256 to 1270 - The soil of this Village is said to be of an inferior quality
 It is not fit to be compared placed on par with that of the Village under settlement -

Wet 2 1/2 acres cultivated at 6 R. per acre 15

Wet 4 acres long waste fit to be cultivated
 at 2 R. per acre 8
