Here is a letter which I sent
for service - It was received by
Rankin
25-5-84.

There a Switzer kept wanted
for service - It was necessary
to get 30 years & 1/2 years of his
time - I think I had to leave
night to be out of the house
at the house of the residence of the village
was illegal but as the services were
needed due to the fact, I had 30 years
paid, the same was the case, as they
and a note that it was been here
changed by the King, had been used in

Paddy is not paid as the Village is in possession of the Government since the last half century 1870.
 However as the Village would be liable to Paddy of Rs 83 5-7 per annum if it were held by the
 Government, it is accepted in this settlement.

IV. The Canal depends upon one Tank of moderate size. It is in repair. It is fed by
 an artificial Tank, Panna, which ^{is fed by} ultimately flows into the Tank of Rasinga Mongalam.
 The Canal is filled annually. Security of Water is not full generally. The District of the Canal & the
 Government the Village says that the old lands were entirely under plough so far back as 3 or 4 years.
 & that there is no waste since the last 3 or 4 years from want of repairs to the Tank & that all these
 lands were brought under plough within one or two years as the Tank is being repaired.
 This is a matter of reassurance. Most of the old lands on the whole of the old area are followed generally
 same as the new. Some of the old lands are followed annually 2 times. 1/4 of the old area is
 followed 2 times on an average. 2 1/4 acres are followed with grain crops ^{the} ~~indistinctly~~
 The Village is in pretty good state. The average income of the Village is 206 Rupees per annum as
 per statement of the District of the Canal. The average old assessment of the Village is 206 Rupees per
 annum from 1250 to 1270 comes to 206 Rupees per annum. The average dry area is 1000
 acres. The average of the fertility of soil in the Village is 1-2-5 to 1-4-5 per acre. The average of the fertility of soil in the Village is 1-2-5 to 1-4-5 per acre. The average of the fertility of soil in the Village is 1-2-5 to 1-4-5 per acre.

Village as follows -
 Wet 40 acres followed at 200 Rupees per acre - 2800
 Wet 8 acres of an inferior quality at 100 Rupees per acre - 800
 Garden 2 1/4 acres at 60 Rupees per acre - 150
 Total - 32100
 The Government of the Village calculated the average income of this Village at 300 Rupees per annum from his Account.

The main point for consideration is whether the donors who were descendants of the Hall were or their descendants had right to dispose of the ^{Christian} portion of $\frac{1}{8}$ of the Village - Decidedly they had not - The descendants of the Hall were disposed of $\frac{1}{8}$ of the Village & several other Villages belonging to the Christian which the Christian & the endowments appertained. These were under their own management - The Christian was placed in possession under the management of the Jesuits about 30 years ago - from that of the gift was as the latter ones appropriated the funds & involved the Institution into a considerable debt - For details about the Christian, the register sheet on the preliminary remarks are written - The gift deed of gift of the Christian portion $\frac{1}{8}$ of the Village shows that the Hall was to dispose of the endowments of the Christian - This is a mistake - It is clear that the lands entered in the Patent do belong to the Christian - Most of the lands mentioned therein are in possession of the Christian since the date of the grant - If the lands are really to be disposed of, the object of the grant will be frustrated - The Minister of the District, who at the asked all the endowments of the Christian & asked that the
