 1-6-1

average value of grain of Meluarum on wet land in Marayur Machanuram
 consisting of Agri Villages in Partipharur Taluq, for a period of
 15 years

Year	Cultivated area in Acre	Grain out	Of which grain is sold at prices of 45 percent grain	Average value of grain in Meluarum	Value of grain per Acre
1870	74	13178	6	25905	1-6-11 8458-9 8-5-0

Mullayagur, Iyazany Iyengar, Panayagur, Rastur Rangiyar, Muttaya all as daly.
 & Sundaram Pillai, shavers in the Village. Seven bills are on plain paper leaves & five are on stamped paper leaves. Transactions proved to be bona fide. Engagement proved - The Mother of the person of 16 May's Bill is
 agrees the two parties entered opposite his name as per money given her father, who was father of the person.
 No 5 of 16. No deed of gift. The person of 5 of 16 admits the transaction. Engagement proved.
 The Mother of the person of 9 of 16 & 10 of 16 acquired their lands some half century ago from
 the Grand Father of the person of 9 of 16 as per money. No deed of gift. Transaction is admitted by the
 person of 5 of 16. Engagement proved. The person of 11 & the person of 17 & 21 & the person of 22 -
 in addition to person of 24 & 25 of 16 are enjoying 16 Villages without documents. The person of -
 of 16 say that their ancestors disposed of these lands partly by purchase & partly by gifts
 & proved -

one Anas Agri alias Rasturwarer pleads that the Ex-geminar bestowed to him as gift of 16 Villages
 of this Village. 3 years ago - under a deed of gift on a stamped paper, that he is enjoying
 since, & that they are placed under attachment since the last 4 months pending a civil decision.
 Civil Court regarding the Rasturwarer or purchased lands of the Ex-geminar which have been
 issued of attachment. The Rang's Vakool admits that the Ex-geminar did give the 16 Villages
 to the said Anas Agri alias Rasturwarer & that the Ex-geminar is not a rightful owner.
 of the estate, the transaction of the gift should be annulled & the 16 Villages should be registered in the
 name of the Rang - As the transaction proved to be bona fide, the 16 Villages are registered in
 name of the Rang & the said Anas Agri & the Rang is referred to Civil Court (Vid. next case)

Well lands in this Village depend upon 2 Tanks of large size - They are in repair - They are fed by Pungla Streams & by one of the branches of the main stream of the Pungla River - which comes out through the Tank of the Maharajah, an important Dammamam Village, & feeds the Tanks of the several important Villages -

The Tanks in the Village are fed annually - No scarcity of Water is felt generally - The Maharajahs of the Pungla District have 6 Annas of Water & 71 Annas of Dry as cultivated lands & 42 1/2 Annas of Water & 139 Annas of Dry as waste - From the very statement of the Maharajahs it appears that the Wet & Dry lands assigned as waste are actually under plough - Some say that these waste lands are once or twice a year waste lands & others say that they are under plough & that there is no use of uttering falsehood -

Some of the Wet lands are cultivated annually 2 times - 1/2 of the whole area is said to be cultivated 2 times annually - No garden crops are raised in the Village -

The Village is in flourishing state - Kharab & Pungla lands are of a superior quality generally - The Maharajahs possess large extent of lands as the bed of the Pungla River -

They plead that they are not fit for cultivation - The average income of the Village as per statement of the Maharajahs is 304 Rupees per annum - This is not true at all -

The contiguous Agency Villages are Telaga & Kattagudem. The average Wet assessment of these Villages is 1000 Rupees calculated for a period of 15 years previous to 1870 -

to 6 & 2 & 6 for Annas respectively - The average rate of Dry assessment varies from 10 to 136 for Annas - (Vide next side)

(Vise niet toe)

The adjacent villages are in flourishing state - In consideration of the fertility of soil & I frame the valuation of the Village as follows.

Wet 170 Acres cultivated annually once & partly 3 times at $6\frac{1}{4}$ Rupees per acre. 750

Wet $18\frac{1}{2}$ Acres cultivated once at 20 Rupees per acre 37 787

Total 138 $\frac{1}{2}$

Dry 240 $\frac{1}{2}$ Acres. All these are under plough - at 8 Rupees per acre 2365

Total 1023-5-0
