1 This is one of the villages in the genuine grant of Periyar. This was granted, as appears from a Potta produced by one of the Missionary servants of the Temple, for the support of the Temple of Peri Nayana the Gowry in Turtangur in Takkai Taluk Taluk in Periyar genuine. The Potta is not a registered one. It is on two plain paper leaves. The Range Officer says that though the document is not a registered one, still it is a genuine one. The Potta is dated 1789. In the state of things, the village is entered as free in the Account of 1789 & it was altogether omitted from the Enumerations. Registering A.D. 1815. It is entered in the name of the Institution in the Account of 1789 & 1815. The Range Officer says that as the Potta which is dated previous to the Permanent Settlement is a genuine one & as the village is in uninterrupted possession of the Temple since the date of the grant, the village may be registered in the name of the Temple Institution. In an Account of alleged recent aberrations forwarded to the Board of Revenue in A.D. 1838, by the then collector Mr. Blackburne, the village also is entered. But it is not stated when this was granted. The name of the grantor is given as Gowry Vallaba Periya Votaya Tamer, the Talimmar genuine. Whereas from the Potta it appears that this was granted by Vijaya Raghava the Periya Votaya Tamer. The Account of A.D. 1838 was prepared from the information furnished by the genuine. Hence I consider that this is not trustworthy. As the Potta is a genuine one, as it is dated 1789 which is 5 years ago & as the alleged Account of 1789 is not correct one, I shall treat this village as one of the villages deducted from the assets upon which the Permanent Settlement was based & treat it as such.
