Valuations

- Wet lands depend upon one small tank. It is in repair. It is fed by a Pung's stream etc.
 - The tank is filled annually. Fertility of water is not felt generally. This is a small village.
 - Mangala & Pung's lands are of a medium fertility generally. Wet lands are not cultivated 2^d time.
 - The average income of the village as per statement of the Mahasamant is 24 Rupees per annum.
 - No interests to be taken in the average wet assessment of the adjacent Agri lands.
 - In consideration of the fertility given to the frame the valuation of the village is as follows.

Wet 9 Acre. Cultivated annually at 4 Rupees per Acre — 36
 Dry 3 1/2 Acre at 1 Rupee per Acre — 3 1/2
 Total — 48 1/2
