II The boundaries of these villages which are situated contiguous to each other are not recorded in the account of 1823. In the account of 1823 the names of the villages of Thiruvannamalai, Peralur, & Kairasam Kurichi are entered & the names of the villages of Parattanam & Perambalur are omitted. It is said that Parattanam is a hamlet of Thiruvannamalai. In the account of 1823 & of 1825, some of the villages were entered as follows:—
For the support of the day's wages of the labourers the names of which are not known to any—(these must be added)

III Four Villages are brought here on one of the same Register as the one of the same is entered in Camp in all the Accounts -
In the Account of 1721 the area of these Villages is now under settlement is given as 16 Annas & 10 Pents - In the Account of 1722 it is entered as 6 Annas -
& in the Agent Account of 1723 it is entered as 4 Annas & 80 Pents - Now the Trustees of 1724 added 12 1/2 Annas of 600 & 280 Annas & the area entered in the
Account of 1724 - This is a marked increase - The Trustees produced an ^{authentic} copy of a Muzammanah dated 1808 & which was registered in the Court on the
31st August 1809 & which contains the boundaries of these Villages - This Muzammanah contains the four Villages - brought on the Register -
The object of the Muzammanah was to establish the boundaries of these Villages - The boundaries are not such as to prevent the Trustees from encroaching upon
adjacent Ayen lands - The Valah of the Pany of Singanga wrote around the Muzammanah statement that he has no fault to find with the boundaries
given in the Muzammanah which was entered now in the ^{Register} statement of these Villages under settlement - I don't condone the Valah in saying that
he has no reason to find fault with the boundaries of these four Villages - when the excess is a striking one - There is a large Ayen Village of Patnam situated
contiguous to these four Villages - This is one of the Sub Division of the same Villages and to the ^{South} of it is a large Ayen Village of Patnam
& this Village was ^{from} under mortgage with Annachellum ^{one} of the sellers - I don't ^{think} whether the lands & of the ^{other} Villages of Patnam
were added to the Villages under settlement ^{by} the consent of the purchasers or mortgagees - These Sellers look much to the Muttam than any thing else -
I don't think that the Suty who purchased the Village of Patnam has hereditary right in it - If the Government falls in possession of God, I don't think
they will lose their interest in it - If that be right, the purchaser of the Ayen Village will be anxious to transfer the lands of the Ayen Village to his interest
Muttam Villages - On the whole as the Government's Valah is silent & there are no complaints of the Trustees having encroached upon any of the Ayen
I register here the 420 Annas & 54 Pents - The boundaries given in the Muzammanah including the lands of the four Villages under settlement -
The Pany of all the Villages belonging to the Muttam is 1321 - in Camp - The Villages were declared of the same ^{are not known} -
with the ^{other} Villages - The Government has no objection to registering the names of the Trustees here

15..... The Trustees is under the management of the Trust
6 The average income of the Village is 745.9 per an
