

do not say

1 This is only the beginning of the journeying of *Trigonotis*. This was granted for the support of a family known by the name of *Trigonotis* *peruana* *peruana*. in *Ranunculus*. This is a permanent grant. No other. The *peruana* is efficiently kept up. Daily several *peruana* are fed *peruana* - without frustrating the object of the grant. No talk now about the area or about the boundaries on the part of the *Ranunculus*. The boundaries now inserted in the remainder statement correspond to those in the Account of *Trigonotis*. Hence the boundaries are confirmed here & the 389 *peruana* & 9 *peruana* are registered here.

II. The fortifications & the embankments affording thereto are under the management of the Navy General Surveyors.

III. The average income of the Village is 365 Rupees per annum or per estate and of the farmstead. This is quite false -

In consideration of the fertility of soil & I frame the valuation of the Village at 900 Papies per annum. This is very liberal & the Farmers produce false account with a view to aid the adjoining holders of the personal grants & to screen their misappropriations of the funds of the Institution.

As per acct of Fr 124.
