I This is one of the Dharmasanams in the Zemindary of Sevagunga. This was granted by the Rajah of 011 to the Brahmins of various families through Strirangapaty Iyengar, for subsistence. This is a hereditary grant. No break of enjoyment. The Village is supported by all the accounts of 012. No Talk arose about the area or about the boundaries on the part of the Rajah's Vakeel. The boundaries correspond to those in the account of F1244. These boundaries differ to some extent from those in the account of Fusly 1223. The Mahajanams say that these are one & the same on the spot, & that if any difference is found on personal examination between these two boundaries, they will guide by the one which may be selected by the Zemindar for them. Hence the area of 73 Acres & 78 Cents situated within the said boundaries is confirmed here.

II The Village consists of 8 equal Vritties. They are enjoyed as shown in the margin. The lands were divided permanently long ago. Poruppu is paid on the number of Vritties equally & permanently.

III The persons No 1 to 7 of 16 are descendants of the Ogl Grantee of No 13 & others are aliens.

The persons No 8-9-10-11 & 14 of 16 purchased 3 Vritties in AD 1796-1798-1799-1800-1805 & 1831 for Rupees 313-2 from one Anantarama Kistna Iyengar one descendant of the Ogl Grantee. Seven bills are on plain Cadjan leaves. Transaction proved to be bona fide. Enjoyment proved.

IV The ~~[illegible]~~ No 12 of 16 acquired one Vritty from her Husband's natural younger brother for maintenance with full powers of disposing of it as she may think proper. This she received in AD 1835. The agreement is on a plain Cadjan leaf- Transaction proved to be bonafide- Enjoyment proved- The Grand Father of the Donor purchased the one Vritty previously in AD 1799 for Pagodas 69-16-4 from one of the descendants of the Orgl Grantee. Bill of sale is on a plain Cadjan leaf- Transaction proved to be bonafide- Enjoyment proved-

The person No 12 of 16 pleads that his ancestors purchased his one Vritty long ago from one of the descendants of the Orgl Grantee & that bill of sale was lost- Transaction is admitted by the persons of 16- Enjoyment proved. The persons No 8-9 & 10 of 16 have no document for 3/4 Vritty- Their ancestors purchased the 3/4 Vritty long ago. This is proved by the persons of 16. The Mother of the persons No 3 & 4 of 16 acquired the lands entered opposite to their names in "Shrotriem" in AD 1842 from her younger brother- Agreement is on a plain Cadjan leaf- Enjoyment proved. The younger brother admits the transaction.

Valuation } V Wet lands depend upon one Tank of moderate size- It is in repair. It is fed by a Jungle Stream & by the Waste Water of the adjacent Ayen Villages. The Tank is filled annually. Scarcity of Water is not felt generally. Nanjah lands are cultivated annually in full- Punjah lands also are cultivated in full- Some of the Wet lands are cultivated annually 2d crop- Nanjah & Punjah lands are of a medium character generally- No Garden is raised. The contiguous Ayen Village is Surakolam. The average Wet assessment of the contiguous Ayen Village calculated for a period of 15 years previous to F1270 comes to 6 Rupees per acre- The average Dry assessment of the said Ayen Village varies from 0-7-3 to 0-9-3 per acre. The Mahazanamah say that the soil of this Village is somewhat inferior to that of the contiguous Ayen Village. The average income of the Vd as per statement of the Mahazar (X)

(X) is 100 Rupees per annum- This is not true. In consideration of the fertility of soil &c I frame the valuation of the Village as follows.

- Wet 30 Acres at 6 Rupees per acre — 180 —

Wet 8 Acres of an inferior quality at 3 Rupees per acre } 24 — } 204 —

Dry 18 1/4 Acres at 12 As per acre — 13-11 —

Total - 217-11-0

Ranked 26-364 }
